How to Write Short Roy Peter Clark 2013-08-27 America's most influential writing teacher offers an engaging and practical guide to effective short-form writing.

In How to Write Short, Roy Peter Clark turns his attention to the art of painting a thousand pictures with just a few words. Short forms of writing have always existed-from ship logs and telegrams to prayers and haikus. But in this ever-changing Internet age, short-form writing has become an essential skill. Clark covers how to write effective and powerful titles, headlines, essays, sales pitches, Tweets, letters, and even self-descriptions for online dating services. With examples from the long tradition of short-form writing in Western culture, How to Write Short guides writers to crafting brilliant prose, even in 140 characters. **Poems** John Donne 1901

The Man Who Invented Rock Hudson Robert Hofler 2006-09-12 Henry Willson started off as a talent scout under Gone with the Wind's powerhouse mogul, David O. Selznick. The starmaker-to-be was on the lookout for promising newcomers when he received an unsolicited photograph from a movie star hopeful named Roy Fitzgerald. The photograph of the handsome young man with bad teeth not only had a career defining impact for Willson but, more importantly, it redefined Hollywood's concept of the male heartthrob. Roy Fitzgerald became Rock Hudson and, for the next twenty-five years, Henry Willson became the man behind movie "beefcake." The Man Who Invented Rock Hudson delves into Willson's life in explicit, unsparing detail. Variety reporter Robert Hofler deftly chronicles Willson's maneuvers to sidestep the FBI's investigation into Hudson's sex life; the agent's use of off-duty L.A.P.D. cops and Mob ties to scare off Hudson's blackmailers; Hudson's "arranged" marriage to Willson's secretary, Phyllis Gates; as well as Hudson's affair with a Universal Pictures vice-president to help secure starring roles. Additionally, the book discusses Willson's other star clients, including Robert Wagner, Troy Donahue, Tab Hunter, John Derek, James Darren, Chad Everett, Mike Connors, and many others.

The Professional Kresley Cole 2014-05-06 The highly anticipated complete novel of The Professional—the first installment in #1 New York Times bestselling author Kresley Cole's scorching Game Maker series, an erotica collection that has readers asking: How hot is too hot? Get lost in the sultry world of the Game Maker series with The Master, book two, and The Player, book three! Meet the Professional. Mafiya enforcer Aleksandr “The Siberian” Sevastyan’s loyalty to his boss is unwavering, until he meets the boss’s long-lost daughter, a curvy, tantalizing redhead who haunts his mind and heats his blood like no other.

Ordered to protect her, Aleksandr will do anything to possess her as well—on his own wicked terms. He makes the rules. Grad student Natalie Porter has barely recovered from her first encounter with the dark and breathtaking Siberian when he whisks her away to Russia, thrusting her into a world of extreme wealth and wanton pleasures. In the game of obsession, two players are better than one. Yet all is not as it seems. To remove Natalie from an enemy’s reach, Aleksandr spirits her into hiding. From an opulent palace in Russia to the decadent playgrounds of the mega-rich in Paris, the two lovers tempt each other’s boundaries to discover whether their darkest—and most forbidden—fantasies really can come true... Previously released as The Professional—Parts 1, 2, and 3 as ebook exclusives.

The Survivor Story of Arnelle Arnelle M. Cruz 2019-11-21 This compelling true story follows a young girl whose life was torn apart by the civil war in Liberia, leaving her with nothing but the hope to survive. Her unforgettable true story will take you on a journey of fear, panic and confusion. With no way out, she and her family must find a way to stay alive. As she struggles, becoming a refugee is something all too new for her but staying alive is the only hope she has.

Steal This Book Abbie Hoffman 2002-02-25 A handbook of survival and warfare for the citizens of Woodstock Nation A classic of counterculture literature and one of the most influential—and controversial—documents of the twentieth century, Steal This Book is as valuable today as the day it was published. It has been in print continuously for more than four decades, and it has educated and inspired countless thousands of young activists. Conceived as an instruction manual for radical social change, Steal This Book is divided into three sections—Survive! Fight! and Liberate! Ever wonder how to start a guerilla radio station? Or maybe you want to brush up on your shoplifting techniques. Perhaps you're just looking for the best free entertainment in New York City. (The Frick Collection—"Great when you're stoned.") Packed with information, advice, and Abbie's unique outlaw wisdom ("Avoid all needle drugs--the only dope worth shooting is Richard Nixon."), Steal This Book is a timeless reminder that, no matter what the struggle, freedom is always worth fighting for. "All Power to the Imagination was his credo. Abbie was the best."--Studs Terkel

Provocations Camille Paglia 2019-09-17 Much has changed since Camille Paglia first burst onto the scene with her groundbreaking Sexual Personae, but the laser-sharp insights of this major American thinker continue to be ahead of the curve—not only capturing the tone of the moment but also often anticipating it. Opening with a blazing manifesto of an introduction in which Paglia outlines the bedrock beliefs that inform her writing—freedom of speech, the necessity of fearless inquiry, and a deep respect for all art, both erudite and popular—Provocations gathers together a rich, varied body of work spanning twenty-five years, illuminating everything from the Odyssey to the Oscars, from punk rock to presidents past and present. Whatever your political inclination or literary and artistic touchstones, Paglia’s takes are compulsively readable, thought provoking, galvanizing, and an essential part of our cultural dialogue, invariably giving voice to what most needs to be said.

Oil Well Testing Navid Naderpour 2008-02-01 Petroleum is derived from the Latin word petra, meaning rock or stone, and oleum, meaning oil. It comprises a variety of liquid hydrocarbom compounds made up of different proportions of the elements carbon and hydrogen. Petroleum source rocks are fine grained sedimentary rocks from which it is difficult to extract large quantities of or gas. These rocks are also termed 'reservoir rock'. Well testing has progressed to become one of the most powerful tools for determining the complex reservoir characteristics. Well tests are performed by significantly changing the flow rate of a well. This book provides an approach into the techniques and procedures that are used by the expert engineer to effectively carry out a test under various conditions. The book also covers all the major operational aspects of oil and gas well testing. It uses a structured approach to guide the reader through the various steps that are required to effectively plan and implement a well test operation under just about any circumstances world-wide on-shore or off-shore.

The Hunting of the Snark Lewis Carroll 1876 The adventures of a motley crew in search of an elusive prey.

Managerial Economics Mark Hirschey 2006 The Eleventh Edition of this market-leading text continues its tradition of providing a solid foundation of economic understanding for use in managerial decision making. It offers a practical treatment of economic theory and analysis in an intuitive, calculus-based format. Its focus is on presenting those aspects of economic theory and analysis that are most relevant to students of business administration, and a wide variety of examples and simple numerical problems are used to illustrate the application of managerial economics to a vast assortment of practical situations. The nature of the decision process and the role that economic analysis plays in that process are emphasized throughout. This major revision is designed to maximize accessibility for a student audience with little or no background in economics, and no previous training in calculus.

Catch and Kill Ronan Farrow 2019-10-15 One of the Best Books of the Year Time * NPR * Washington Post * Bloomberg News * Chicago Tribune * Chicago Public Library * Fortune * Los Angeles Times * E! News * The Telegraph * Apple * Library Journal In this newly updated edition of the "meticulous and devastating" (Associated Press) account of violence and espionage that spent months on the New York Times Bestsellers list, Ronan Farrow exposes serial abusers and a cabal of powerful interests hell-bent on covering up the truth, at any cost - from Hollywood to Washington and beyond. In 2017, a routine network television investigation led to a story only whispered about: one of Hollywood's most powerful producers was a predator, protected by fear, wealth, and a conspiracy of silence. As Farrow drew closer to the truth, shadowy operatives, from high-priced lawyers to elite war-hardened spies, mounted a secret campaign of intimidation, threatening his career, following his every move, and weaponizing an account of abuse in his own family. This is the untold story of the exotic tactics of surveillance and intimidation deployed by wealthy and connected men to threaten journalists, evade accountability, and silence victims of abuse. And it's the story of the women who risked everything to expose the truth and spark a global movement Los Angeles Times Book Prize Finalist Finalist for the National Book Critics Circle Award in AutobiographyIndie Bound #1 BestsellerUSA Today BestsellerWall Street Journal Bestseller

The Uses of Literature Perry Link 2000-03-05 Using the late 1970s and early 1980s as an entree to the workings of China's "socialist literary system, " the author shows how that system held sway from 1950 until around 1990, when an encroaching market economy gradually but fundamentally changed it. In addition to providing a definitive overview of how the socialist. Chinese literary system worked, Link off comparisons to the similar system in the Soviet Union. In the final chapter, the book seeks to understand how the word "good" was used and understood when applied to literary works in such systems.

Introducing Transformational Grammar Jamal Ouhalla 1999 The first edition of this book quickly established itself as one of the clearest and most readable introductions to generative grammar. Together with a complete introduction to the principles of Universal Grammar, it traced the major shifts of perspective that have influenced the developments of the theory over the last forty years. This revised and expanded new edition introduces students with no previous training to Transformational Grammar. Covering the framework known as Principles and Parameters as well as the more recent framework known as Minimalism, it includes a range of new exercises, making it ideal for students at all levels.

Practical Finite Element Analysis Nitin S. Gokhale 2008 Highlights of the book: Discussion about all the fields of Computer Aided Engineering, Finite Element Analysis Sharing of worldwide experience by more than 10 working professionals Emphasis on Practical usage and minimum mathematics Simple language, more than 1000 colour images International quality printing on specially imported paper Why this book has been written ... FEA is gaining popularity day by day & is a sought after dream career for mechanical engineers. Enthusiastic engineers and managers who want to refresh or update the knowledge on FEA are encountered with volume of published books. Often professionals realize that they are not in touch with theoretical concepts as being pre-requisite and find it too mathematical and Hi-Fi. Many a times these books just end up being decoration in their book shelves ... All the authors of this book are from IITs & IISc and after joining the industry realized gap between university education and the practical FEA. Over the years they learned it via interaction with experts from international community, sharing experience with each other and hard route of trial & error method. The basic aim of this book is to share the knowledge & practices used in the industry with experienced and in particular beginners so as to reduce the learning curve & avoid reinvention of the cycle. Emphasis is on simple language, practical usage, minimum mathematics & no pre-requisites. All basic concepts of engineering are included as & where it is required. It is hoped that this book would be helpful to beginners, experienced users, managers, group leaders and as additional reading material for university courses.

Kissing The Gunner's Daughter Ruth Rendell 2010-09-30 The fifteenth book to feature the classic crime-solving detective, Chief Inspector Wexford. The thirteenth of May is famously the unluckiest day of the year. Sergeant Caleb Martin of Kingsmarkham CID had no idea just how terminally unlucky it would prove, as he embarked upon his last day on earth... Ten months later, Wexford is confronted with a murder scene of horrific brutality. At first the bloodbath at Tancred House looks like the desperate work of a burglar panicked into murder. The sole survivor of the massacre, seventeen-year-old Daisy Flory, remembers the events imperfectly, and her confused account of the fatal night seems to confirm this theory. But more and more, Chief Inspector Wexford is convinced that the crime lies closer to home, and that it has sinister links to the murder of Sergeant Martin...

The Maid's Version Daniel Woodrell 2013-08-15 In 1929, an explosion in a Missouri dance hall killed forty-two people. Who was to blame? Mobsters from St Louis? Embittered gypsies? The preacher who cursed the waltzing couples for their sins? Or could it just have been a colossal accident? Alma Dunahew, whose scandalous younger sister was among the dead, believes the answer lies in a dangerous love affair, but no one will listen to a maid from the wrong side of the tracks. It is only decades later that her grandson hears her version of events - and must decide if it is the right one.

Daisy'S Diary Pranai 2013-07-10 Daisy records her observations and thoughts on interesting events throughout the year.
