Fraud and Corruption
Nigel Iyer 2016-12-05
Executives are under enormous pressure to meet stakeholder expectations regarding the prevention of fraud and corruption. However, the drive to demonstrate that they are complying with legislative requirements and high principles has, in many cases, overshadowed the need to deal with the problem itself. As a result, fraud and corruption remain a significant unmanaged source of risk for many organizations. Drawing on experiences across Europe, America and Australia, Iyer and Samociuk give you the tools to establish an effective and far-reaching anti-fraud and corruption programme. Included is a compendium of techniques for assessing the true risk of fraud and corruption, reducing those risks and using health checks to provide early warnings. Also included is The Tightrope, A
Story of Fraud and Corruption...which takes the reader from first suspicions through crisis and finally recovery in a vivid and instructive style, covering the lessons in the main text. This new book is a must-read for all those responsible for the prevention of fraud and corruption, risk management, corporate compliance, corporate responsibility and governance.

5th of July 1983 I had close relatives experience, first I felt how I left the body lying in the bed at Rikshospitalet and saw my body from above, then I saw my life pass as in a revue on a TV screen so nothing from any church was yet in the church - so I saw a tunnel with light at the other end of the tunnel passed through the tunnel and there God and Jesus and the angels asked: "What are we going to do with Leif?" Then God decided that I would return to life: and I woke up in the hospital bed where there was full panic - and a young doctor explained that I had been declared dead. Then I tried to sing something but none of the songs at a Christian agricultural school that I learned the pass so I sang what I could of: "O great god!" 8/7 I was at the airport of the host on my way from Rikshospitalet to Namsos Hospital, and then I prayed to God and Jesus: "Dear God and Jesus let me become their children and let me become a Christian." Then God and Jesus immediately answered and God Spoke prophic through me as written in Ap.gj. "In the last days, I will pour out of my Spirit upon all flesh of the Lord ..." etc. Never read it and God
spoke in my thunder through me - since in the ambulance I spoke to God and Jesus and asked them: Impossible to be correct because I have heard that no-one knows that God exists. "Yes!" so they. Yes, I only accepted it: So I said "Now that I know you're the truth, can I ask you something?" "Ask what you want!" so they. Then I said, "There are so many directions in Christianity and now that I know that Christianity is true, what shall I seek that will be right for you God?" Then there was a little time, so it came "Searching you Aage Samuelsen!" And then I came to do from 1984 and still stand for what he stood for 2016.

The Cages We Built Kendi Karimi 2021-02-02 The Cages We Built talks about the freedom of love and the cage of mental struggles The Cages We Built is a book that openly talks about one's emotional vulnerability and the freedom and right we all have to give and receive love, to be love. But, since this book is written from my personal experiences, it also talks about the things that get us to that point of love. Those ugly scars that make us and the journey of a depressed mind that still leads one to the light. These are the mental cages of life, specifically depression. Not only is its rate increasing but people are bottling up their emotions with drugs and social media more and more and people need to see that it's okay to openly talk about those 'ugly parts' of us. They still make us the beautiful people we are now who deserve love and whose legacy, at least in part, should be...
about the freedom brought about from the cages of the mind broken free that once suffocated our human experience. It's divided into three chapters; freedom, rebellion and the war. Freedom is a section of poems that joyfully celebrate love and intimacy and highlight the madness drunk in the cup of love. In rebellion, the poems rebel against mistreatment in love and appreciation of oneself as enough as a source of love rebelling against the societal idea of love. Lastly, the war is composed of difficult poems written during the height of the said depression. They show the clear different mental states of a depressed person when in love and, of a self-loving person when in love. They give more life to the right to experience love in all its flames by showing a contrast of the life lived before and telling the story of that life in rhyme. That is why, to summarize, the book talks about passion and depression as written on the cover.

Ain't what's bad supposed to eventually leave you alone? All along I've had me Happy me and sad me Ain't what's good supposed to eventually find in you a home? Don't fall for the pretending of things When they go wrong, it's not what it seems Don't shrivel your throat with silent screams Silence is enlightening but sometimes it dims I am learning to fall And what it means to fly I am learning to let go Of what doesn't want to be mine I am kissing myself In a calm breeze I am finally able To anticipate my most intimate needs
