Raymond Hickey 2021-05-09 The Enlightenment commitment to reason naturally gave rise to a belief in the perfectibility of man. Influenced by John Locke and Jean-Jacques Rousseau many eighteenth-century writers argued that the proper education and upbringing could make any man a member of the cultural elite. Yet even in this equivariant environment, the concept of breeding remained tied to theories of blood lineage, caste distinction, and biological difference. Turning to the works of Locke, Rousseau, Smith, Defoe, and other giants of the British Enlightenment, Jenny Davidsen reviews the debates that ramped over the husbandry of human nature and highlights their critical impact on the development of eugenics, the emergence of fears about biological determinism, and the history of the language itself.
