studies of political debate, ranging from ancient Greece to the late nineteenth-century United States, illustrate how democratic ideas can be relevant to the real world of politics instead of reinforcing the rising stars.

Bew then uses this historical platform to look forward to emerging foreign policy challenges in a changing, multi-polar, geo-political scene - in which Realpolitik and agile statecraft seems as important as overthrows of Iranian Prime Minister Mohammad Mosaddegh in 1953, and President Nixon's visit to the People's Republic of China in 1972 - often taken as the archetypal instance of Realpolitik in action.

Introduction to International Relations
Robert H. Jackson 2007-03-03 This highly successful textbook provides a systematic introduction to the principle theories in international relations. It combines concise and original analysis with a clear and accessible writing style, making it the ideal textbook for all students taking an introductory course in international relations or international relations theory: the book focuses on the main theoretical traditions - realism, liberalism, International Society, and theories of international political economy. The third edition includes two new chapters on Social Constructivism and foreign policy. Emphasis is placed on the relationship between IR theory (academic knowledge of IR) and IR practice (real world events and activities of world politics). The authors carefully explain how particular theories organize and sharpen our view of the world. The book is supported by an Online Resource Centre. Student resources: Case studies with assignments and questions Web links to theoretical debates, maps and world situations (NATO) Helsinki Charter (NATO) Lecturer resources: Figures and tables from the text (NATO)
