The Political Economy of Transnational Tax Reform: W. Elliot Brownlee 2013-07-22 This volume of essays explores the history of the U.S. tax mission to Japan during the occupation following World War II. General MacArthur appointed economist Carl S. Shoup to create a new tax system for Japan. The goals of the tax system were to strengthen Japanese democracy and accelerate economic recovery. This volume examines the administrative world of Shoup and his colleagues on the mission, describes their collaboration with their Japanese counterparts, and analyzes the mission's effects. It concludes by discussing the global significance of the mission, which became an iconic model for international tax reform.

In the final section, the editors offer their conclusions about the promise and pitfalls of democracy in the region.
