Fusion power - Wikipedia
Fusion power is a proposed form of power generation that would generate electricity by using heat from nuclear fusion reactions. In a fusion process, two lighter atomic nuclei combine to form a heavier nucleus, while releasing energy. Devices designed to harness this energy are known as fusion reactors. Fusion processes require fuel and a confined environment with sufficient temperature to achieve the necessary conditions.

9th House in Astrology (An Easy Guide to the 9th House)
The 9th House in astrology covers higher education and higher thought. It looks at the world abstractly to create meaning and conclusions from experiences. It looks for the meaning or messages conveyed by events, signs and symbols. Because the 9th House involves looking at life from a broader perspective, it is related to long-distance travel.

Teaching Advanced Physics | IOPSpark
Jul 02, 2019 · The Teaching Advanced Physics (TAP) project gives ideas and resources for teaching physics to students aged 16 to 19 years old. It aims to help those new to teaching this age group, and assumes only a limited access to equipment, resources, and advice from experienced colleagues. It is not intended to constrain the development of other equally valid approaches.
