No Visible Bruises-Rachel Louise Snyder 2019-05-07 WINNER OF THE HILLMAN PRIZE FOR BOOK JOURNALISM, THE HELEN BERNSTEIN BOOK AWARD, AND THE LUKAS WORK-IN-PROGRESS AWARD * A NEW YORK TIMES TOP 10 BOOKS OF THE YEAR * NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST * LOS ANGELES TIMES BOOK PRIZE FINALIST * ABA SILVER GAVEL AWARD FINALIST * KIRKUS PRIZE FINALIST NAMED ONE OF THE BEST BOOKS OF 2019 BY: Esquire, Amazon, Kirkus, Library Journal, Publishers Weekly, BookPage, BookRiot, Economist, New York Times Staff Critics "A seminal and breathtaking account of why home is the most dangerous place to be a woman . . . A tour de force." -Eve Ensler "Terrifying, courageous reportage from our internal war zone." -Andrew Solomon "Extraordinary." -New York Times, "Editors' Choice" "Gut-wrenching, required reading." -Esquire "Compulsively readable . . . It will save lives." -Washington Post "Essential, devastating reading." -Cheryl Strayed, New York Times Book Review An award-winning journalist's intimate investigation of the true scope of domestic violence, revealing how the roots of America's most pressing social crises are buried in abuse that happens behind closed doors. We call it domestic violence. We call it private violence. Sometimes we call it intimate terrorism. But whatever we call it, we generally do not believe it has anything at all to do with us, despite the World Health Organization deeming it a "global epidemic." In America, domestic violence accounts for 15 percent of all violent crime, and yet it remains locked in silence, even as its tendrils reach unseen into so many of our most pressing national issues, from our economy to our education system, from mass shootings to mass incarceration to #MeToo. We still have not taken the true measure of this problem. In No Visible Bruises, journalist Rachel Louise Snyder gives context for what we don't know we're seeing. She frames this urgent and immersive account of the scale of domestic violence in our country around key stories that explode the common myths—that if things were bad enough, victims would just leave; that a violent person cannot become nonviolent; that shelter is an adequate response; and most insidiously that violence inside the home is a private matter, sealed from the public sphere and disconnected from other forms of violence. Through the stories of victims, perpetrators, law enforcement, and reform movements from across the country, Snyder explores the real roots of private violence, its far-reaching consequences for society, and what it will take to truly address it.

The Effects Of Intimate Partner Violence On Children-Robert Geffner 2003 Learn how to help children cope with domestic violence! The Effects of Intimate Partner Violence on Children examines the short- and long-term developmental issues facing children exposed to violence in their own homes. The book addresses the growing concern for children at risk of suffering psychological, behavioral, social, and educational problems, and for the effects childhood maltreatment may have on their adult lives. An interdisciplinary panel of researchers, academicians, attorneys, clinicians, and practitioners discuss treatment programs, theoretical perspectives, research and methodological issues, assessment and intervention, and forensic issues, including child custody. The Effects of Intimate Partner Violence on Children addresses the emotional and behavioral disturbances children can suffer after being exposed to violence between their parents. It examines methodological and theoretical challenges, pilot programs for treatment, intervention models, therapeutic curricula, and family law. Practitioners and academics review dozens of studies, representative samples, probability samples, and research findings relating to children's internalizing and externalizing behaviors, adjustment difficulties, coping strategies. The book also examines: the association between emotional regulation and emotionality and marital and parent-child conflict in terms of children's adjustment and physical health how the experience of mothers in low-income families suffering severe physical abuse relates to children's behavior problems. how father-to-mother aggression reduces children's affinity with their parents problems of service delivery for battered mothers Canadian legislation involving wife abuse and child custody the well-being of families accessing treatment group interventions implemented in family agency and school settings how to develop interagency protocols and much more! The Effects of Intimate Partner Violence on Children is an essential resource for professionals, advocates, and practitioners who work with abused children and maltreating families.

The Effects Of Domestic Violence-Priscilla Taveras 2008

Domestic and Sexual Violence and Abuse-Catherine Itzin 2010-10-04 Domestic violence, childhood sexual abuse, rape and sexual assault, and sexual exploitation through prostitution, pornography and trafficking can have many significant adverse impacts on a survivor's health and wellbeing, in the short, medium and long-term. Taking a life-course approach, the book explores what is known
about appropriate treatment responses to those who have experienced, and those who perpetrate, domestic and sexual violence and abuse. The book also examines key factors that are important in understanding how and why different groups experience heightened risks of domestic and sexual violence and abuse, namely: gender and sexuality; race and culture; disability; and abuse by professionals. Drawing together results from specially commissioned research, the views of experts by experience, experts by profession and the published research literature, the book argues that sufficient is already known to delineate an appropriate public health framework, encompassing primary, secondary and tertiary prevention, to successfully tackle the important public health issue represented by domestic and sexual violence and abuse. Domestic and Sexual Violence and Abuse equips health and social care professionals and services to identify and respond to the needs of affected individuals with a view to the prevention and early intervention.

**The Violence Against Woman Act**: United States. Congress. Senate. Committee on the Judiciary 2011

**Domestic Violence**: Margi Laird McCue 2008 This thoroughly revised second edition is an examination of domestic violence from social, legal, and historical perspectives. * A chronology that stretches from 753 BCE, when Romulus, the founder of Rome, formalized the first "law of marriage" to January 2006, when President George W. Bush signed the third reauthorization of the 1994 Violence against Women Act * Illustrations include the power and control wheel (a model in the form of a wheel that explains the dynamics of domestic violence), the ecological theory of battering, and the characteristics of the victim as illustrated by the World Health Organization

**Preventing intimate partner violence**: Renzetti, Claire 2017-07-12 How can we prevent intimate partner violence (IPV)? And how do we define and measure “success” in preventing it? This book brings together researchers and practitioners from a wide range of fields to examine innovative strategies and programs for preventing IPV. The authors discuss evaluations of current prevention efforts, paying particular attention to underserved groups, including racial and ethnic minorities, immigrants and refugees. Among the issues addressed are primary prevention programs that target adolescents and young adults, strategies designed to engage men and boys, IPV screening in different settings, the impact of the criminalization of IPV on minority populations, restorative justice programs, interventions for women who use violence, and innovative shelter programming to prevent re-victimization. The volume concludes by identifying the gaps in knowledge about effective prevention and highlighting the most promising future directions for prevention research and strategies.

**The Cambridge Handbook of the International Psychology of Women**: Fanny M. Cheung 2020-06-30 There is a growing knowledge base in understanding the differences and similarities between women and men, as well as the diversities among women and sexualities. Although genetic and biological characteristics define human beings conventionally as women and men, their experiences are contextualized in multiple dimensions in terms of gender, sexuality, class, age, ethnicity, and other social dimensions. Beyond the biological and genetic basis of gender differences, gender intersects with culture and other social locations which affect the socialization and development of women across their life span. This handbook provides a comprehensive and up-to-date resource to understand the intersectionality of gender differences, to dispel myths, and to examine gender-relevant as well as culturally relevant implications and appropriate interventions. Featuring a truly international mix of contributors, and incorporating cross-cultural research and comparative perspectives, this handbook will inform mainstream psychology of the international literature on the psychology of women and gender.

**Growing Up with Domestic Violence**: Peter G. Jaffe 2011 This compact and easy-to-read text by leading experts shows practitioners and students how to recognize the impact of intimate partner violence (IPV) on children and youth and to provide effective clinical interventions and school-based prevention programs. Exposure to IPV is defined using examples from different ages and developmental stages. The book describes the effects of exposure to IPV and reviews epidemiology and etiology. Its main focus is on proven assessment, intervention, and prevention strategies. Relevant and current theories regarding the impact of exposure on children and youth are reviewed, and illustrative real-life case studies from the clinical experiences of the authors are described.

Understanding Domestic Violence - Samatha Nakken 2021-04-02 Domestic abuse also called “domestic violence” or “intimate partner violence”, can be defined as a pattern of behavior in any relationship that is used to gain or maintain power and control over an intimate partner. Abuse is physical, sexual, emotional, economic, or psychological actions or threats of actions that influence another person. This includes any behaviors that frighten, intimidate, terrorize, manipulate, hurt, humiliate, blame, injure, or wound someone. Domestic abuse can happen to anyone of any race, age, sexual orientation, religion, or gender. It can occur within a range of relationships including couples who are married, living together, or dating. Domestic violence affects people of all socioeconomic backgrounds and education levels. Topics of this book: - abuse types - perpetrator behaviors - warning signs of abuse - domestic violence in the LGBTQ+ community - increased risks of death - victims of abuse - leaving an abusive relationship, including safety plans - how the law views domestic violence - how to get a restraining order - myths and realities of domestic violence - signs of domestic violence - what to do

Violence in Families - Committee on the Assessment of Family Violence Interventions 1998-02-27 Reports of mistreated children, domestic violence, and abuse of elderly persons continue to strain the capacity of police, courts, social services agencies, and medical centers. At the same time, myriad treatment and prevention programs are providing services to victims and offenders. Although limited research knowledge exists regarding the effectiveness of these programs, such information is often scattered, inaccessible, and difficult to obtain. Violence in Families takes the first hard look at the successes and failures of family violence interventions. It offers recommendations to guide services, programs, policy, and research on victim support and assistance, treatments and penalties for offenders, and law enforcement. Included is an analysis of more than 100 evaluation studies on the outcomes of different kinds of programs and services. Violence in Families provides the most comprehensive review on the topic to date. It explores the scope and complexity of family violence, including identification of the multiple types of victims and offenders, who require different approaches to intervention. The book outlines new strategies that offer promising approaches for service providers and researchers and for improving the evaluation of prevention and treatment services. Violence in Families discusses issues that underlie all types of family violence, such as the tension between family support and the protection of children, risk factors that contribute to violent behavior in families, and the balance between family privacy and community interventions. The core of the book is a research-based review of interventions used in three institutional sectors—social services, health, and law enforcement settings—-and how to measure their effectiveness in combating maltreatment of children, domestic violence, and abuse of the elderly. Among the questions explored by the committee: Does the child protective services system work? Does the threat of arrest deter batterers? The volume discusses the strength of the evidence and highlights emerging links among interventions in different institutional settings. Throughout, readable, and well organized, Violence in Families synthesizes what is known and outlines what needs to be discovered. This volume will be of great interest to policymakers, social services providers, health care professionals, police and court officials, victim advocates, researchers, and concerned individuals.

Surviving Domestic Violence - Elaine Weiss 2004 This is the only book on the market today that focuses on the entire spectrum of emotional, verbal, sexual, and physical abuse. Written by University of Utah Clinical Associate Professor Elaine Weiss, a survivor, the book goes right to the heart of the reader and changes their perspective on this topic. She paints a clear picture of women who stay in a marriage because of their fierce loyalty and commitment to the sanctity of marriage. Elaine emphasizes the period of time after women leave their abuser and describes in detail what they go on to do with their lives. These are stories of twelve women from various walks of life, including professionals. Each a victim of domestic violence. Each escaped from her abuser. Each reclaimed her dignity, reconstructed her life, rediscovered peace. Every woman who has left an abuserevery woman who has yet to leave will find encouragement and support in the voices of these women who broke free.

Rutter's Child and Adolescent Psychiatry - James F. Leckman 2017-12-26 Rutter's Child and Adolescent Psychiatry is the leading textbook in its field. Both interdisciplinary and international, it provides a coherent appraisal of the current state of the field to help researchers, trainees and practicing clinicians in their daily work. Integrating science and clinical practice, it is a comprehensive reference for all aspects of child and adolescent psychiatry. New to this full color edition are expanded coverage on classification, including the newly revised Diagnostic and Statistical Manual of
I Am Not Your Victim-Bethel Sipe 1996-05-20 Detailing the domestic violence suffered by the first author during her 16 year marriage, this moving volume details the background and events leading up to and immediately following Beth Sipe's tragic act of desperation: ending the life of the perpetrator. Encouraged to publish her story by her therapist and co-author, Evelyn Hall, Sipe relates how her case was mishandled by the police, the military, a mental health professional and the welfare system, illustrating how women like herself are further victimized and neglected by the very systems that are expected to provide assistance. Her story is followed by seven commentaries by experts in the field. They discuss the causes and process of spousal abuse, reasons why battered women stay, and the dynamic consequences of domestic violence.

See What You Made Me Do-Jess Hill 2019-06-24 Domestic abuse is a national emergency: one in four Australian women has experienced violence from a man she was intimate with. But too often we ask the wrong question: why didn’t she leave? We should be asking: why did he do it? Investigative journalist Jess Hill puts perpetrators – and the systems that enable them – in the spotlight. See What You Made Me Do is a deep dive into the abuse so many women and children experience – abuse that is often reinforced by the justice system they trust to protect them. Critically, it shows that we can drastically reduce domestic violence – not in generations to come, but today. Combining forensic research with riveting storytelling, See What You Made Me Do radically rethinks how to confront the national crisis of fear and abuse in our homes. 'A shattering book: clear-headed and meticulous, driving always at the truth'—Helen Garner 'One Australian a week is dying as a result of domestic abuse. If that was terrorism, we’d have armed guards on every corner.'—Jimmy Barnes 'Confronting in its honesty this book challenges you to keep reading no matter how uncomfortable it is to face the profound rawness of people’s stories. Such a well written book and so well researched. See What You Made Me Do sheds new light on this complex issue that affects so many of us.'—Rosie Batty

Understanding Violence Against Women-National Research Council 1996-06-07 Violence against women is one factor in the growing wave of alarm about violence in American society. High-profile cases such as the O.J. Simpson trial call attention to the thousands of lesser-known but no less tragic situations in which women's lives are shattered by beatings or sexual assault. The search for solutions has highlighted not only what we know about violence against women but also what we do not know. How can we achieve the best understanding of this problem and its complex ramifications? What research efforts will yield the greatest benefit? What are the questions that must be answered? Understanding Violence Against Women presents a comprehensive overview of current knowledge and identifies four areas with the greatest potential return from a research investment by increasing the understanding of and responding to domestic violence and rape: What interventions are designed to do, whom they are reaching, and how to reach the many victims who do not seek help. Factors that put people at risk of violence and that precipitate violence, including characteristics of offenders. The scope of domestic violence and sexual assault in America and its consequences to individuals, families, and society, including costs. How to structure the study of violence against women to yield more useful knowledge. Despite the news coverage and talk shows, the real fundamental nature of violence against women remains unexplored and often misunderstood. Understanding Violence Against Women provides direction for increasing knowledge that can help ameliorate this national problem.

Living in Fear-Carla Ligia 2020-02-15 A book of great social impact that provides a comprehensive overview of the effects of domestic violence containing real life stories that give evidence of the problems that affect us all, not only within our communities, but globally. I applaud its content and recommend this type of thematic to help the reader understand the factors that bring members of our society to remain in domestic terrorism, which has a detrimental inter-generational impact. To remain oblivious to the reality that women & children face daily in our nation and around the world, is to condemn all of us to continue perpetuating this horrible crime and remain hopeless. This book will help you recognize if you are in an abusive relationship, giving you the first step to free yourself from a lifetime of abuse. To those of you that live in a healthy relationship, I exhort you to explore with the author a societal issue that may be unknown to you. Only by understanding the behaviors that lead to this violence we will be able to educate ourselves. Only by preventing & recognizing this crime and protecting the most vulnerable, our children, can we achieve a society where harmony respect and freedom for all prevails.

When Dad Hurts Mom-Lundy Bancroft 2005-03-01 Written by a therapist who specializes in abusive men, this guide reveals how abusers interact with and manipulate children—and how mothers can help their children recover from the trauma of witnessing abuse. Can my partner abuse me and still be a good parent? Should I stay with my partner for my children's sake? How should I talk to my
children about the abuse and help them heal? Am I a bad mother? Mothers in physically or emotionally abusive relationships ask themselves these questions every day. Whether it’s physical or “just”
emotional abuse, whether it’s aimed at them or you, whether they see or hear it, your kids need you. This book, the first ever of its kind, shows mothers how to: • Protect children and help them heal emotionally • Provide love, support, and positive role models, even in the midst of abuse • Increase their chances of winning custody • Help their kids feel good about themselves “A must-read for every mother who has been abused...it offers the knowledge women need to protect their children and help them heal.”—William S. Pollack, Ph.D., author of the national bestseller Real Boys

Childhood Experiences of Domestic Violence- Caroline McGee 2000 Annotation Children’s Experiences of Domestic Violence focuses on first-hand accounts from children and young people regarding their experiences of both domestic violence and support services. It is the first book to examine the user’s experience of service provision for the victims of domestic violence and it seeks to encourage a more effective and professional approach in the services that serve to support and protect children. The book is based on a unique, three-year research project into child support and protection services that began in 1996. The book examines such topics as; the types of violence experienced by mothers and witnessed by children; the types of abuse children are subjected to; children’s understanding of domestic violence; children’s and mother’s views of how best to protect children and their perception of the support services; and the barriers for children and mothers seeking help. The book assesses the role and response of the social services, police, voluntary organizations and the agencies, of health, education, and housing. It describes approaches to existing problems, emphasizing a child-focused response and concludes by recommending improvements for policy and practice.

Making an Impact - Children and Domestic Violence- Chris Pearson 2006-12-15 This fully updated Reader provides a comprehensive review of recent research and legislation relating to domestic violence and its consequences for children, and identifies the implications for practice. It is divided into three parts. Part One describes evidence for the links between domestic violence and the concomitant abuse of children and assesses the effects on children’s future well-being. Part Two is a comprehensive and accessible guide to relevant current criminal and civil legislation. Highlighting the success of multi-agency approaches, the final part details practical issues for interventions with children and their carers, male perpetrators, and, new to this edition, women. Endorsed by children’s charities including the NSPCC and Barnardo’s, Making an Impact enables professionals working with children to develop informed, sophisticated and collaborative child care and protection responses for children who are experiencing domestic violence.

A Study of Mothers’ Perceptions of the Effects of Domestic Violence on Their Children- Sandy Flores 2001

World Report on Violence and Health- WHO 2002 This report is part of WHO’s response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials.

The Impact of Family Violence on Children and Adolescents- Javad H. Kashani 1998-02-06 A key text examining family violence and its effects on children, The Impact of Family Violence on Children and Adolescents presents various definitions of family violence, along with various theories for the origin of the problem. Authors Javad H. Kashani and Wesley D. Allan discuss different types of intrafamilial violence and the effects of each on youngsters. The book then takes up the phenomenon from a cross-cultural perspective, exploring family violence in non-Western contexts. Finally, the authors offer intervention and prevention strategies (clinical and legal) and suggest future directions for research. Examining this crucial topic from a variety of perspectives, The Impact of Family Violence on Children and Adolescents will be essential reading for those in the fields of clinical/counseling psychology, developmental psychology, nursing, behavioral psychology, social work, health services and family studies.

A Typology of Domestic Violence- Michael P. Johnson 2010-09-01 Reassesses thirty years of domestic violence research and demonstrates three forms of partner violence, distinctive in their origins, effects, and treatments.

Social Work and Domestic Violence- Lesley Laing 2013-02-01 Domestic violence affects all areas of social work. This book shows how social workers can intervene in everyday practice with victims, their families and perpetrators of domestic abuse. It provides students with knowledge of theory, research and policy to put directly in practice across a variety of legal and service-user contexts. Topics covered include: Child protection Interprofessional collaboration The policy and legal context Working with women Working with men Each chapter begins with a case study and concludes with reflective questions to highlight practice dilemmas and challenge students to reflect critically. Further reading from a rich range of sources guides readers to expand their knowledge. This book will be valuable reading for students studying domestic violence, child protection, and family social work, as well as practitioners of Social Work.
Overcoming the Stigma of Intimate Partner Abuse - Christine E Murray 2016-11-10 Overcoming the Stigma of Intimate Partner Abuse addresses the impact of the shame surrounding intimate partner violence and the importance of actively challenging this stigma. Through examples of survivors who have triumphed over past abuse, the book presents a new way to understand the dynamics of abusive relationships as well as demonstrates the strength, resourcefulness, and resilience of victims and survivors. Overcoming the Stigma of Intimate Partner Abuse offers professionals, survivors, and communities an action plan to end stigma, support survivors, advocate for better response systems, raise awareness about abuse, and prevent violence.

The Battered Woman Syndrome - Lenore E. Walker 2001-07-26 In this latest edition of her groundbreaking book, Dr. Lenore Walker has provided a thorough update to her original findings in the field of domestic abuse. Each chapter has been expanded to include new research. The volume contains the latest on the impact of exposure to violence on children, marital rape, child abuse, personality characteristics of different types of batterers, new psychotherapy models for batterers and their victims, and more. Walker also speaks out on her involvement in the O.J. Simpson trial as a defense witness and how he does not fit the empirical data known for domestic violence. This volume should be required reading for all professionals in the field of domestic abuse. For Further Information, Please Click Here!

Battered Women’s Perceptions of the Effects of Domestic Violence on Their Children - Dana Jacobs Burns 1995

Supporting Women after Domestic Violence - Hilary Abrahams 2007-03-27 'This is really interesting and compelling book. Abrahams' writing style is readable and engaging and is interspersed with reference to research and powerfully, the words of women who have experienced domestic violence. Right from the beginning of this book, there are passages that challenge stereotypes and tackle stereotypical thinking regarding women who experience domestic violence... Very engaging, Really useful. Powerful and authoritative, I’d recommend this book to anyone working with women, whether in the community or the workplace. I have worked with a variety of groups (children, families, people with mental health problems, older people) and domestic violence has been a factor in working in all these areas of work. This text will certainly be useful to me and no doubt to many others addressing issues of domestic violence.' - Well-Being ‘Abrahams gives us a sense of how lives are shattered and rebuilt in this compelling book that is the culmination of a research project exploring the experiences of women and children in three refuges in the UK... It is a key resource for those working within women’s refuges, as well as for professionals whose work brings them into contact with victims of domestic violence. Those tasked with developing and implementing public policy would also find it enlightening.’ - Therapy Today ‘Compelling reading for anyone working with women and children living with and leaving domestic violence.’ - From the Foreword by Cathy Humphreys Women who leave an abusive relationship often experience feelings of fear, bewilderment, anger and confusion. The trauma caused by domestic violence leaves a legacy that stays with the survivor, and it is not uncommon for women to experience feelings of loss and grief similar to those following bereavement, but made more complex by the effect that abuse has had on their emotional health and well-being. Supporting Women after Domestic Violence offers accessible advice on how to enable women who have experienced domestic violence to embark on a journey of recovery. The book draws on theory, original research and the personal experiences of women who have encountered domestic violence to explore the complex practical and emotional support they need when engaging in the process of recovery. It highlights the difficulties a victim of domestic violence may encounter following an abusive relationship, offers action points to improve service provision, and covers important issues in recovery, such as the value of mutual support and how women can regain a sense of normality and self-esteem. This book will be a key resource for those working within women’s refuges, as well as social workers, counsellors, mental health professionals and many others whose work may bring them into situations where domestic violence is an issue.

Coercive Control - Evan Stark 2009 Drawing on cases, Stark identifies the problems with our current approach to domestic violence, outlines the components of coercive control, and then uses this alternate framework to analyse the cases of battered women charged with criminal offenses directed at their abusers.

Victims Of Abuse - Crystle Bandel 2021-04-27 If you're in an abusive relationship? Why doesn't she just leave? It's the question many people ask when they learn that a woman is suffering battery and abuse. But if you are in an abusive relationship, you know that it's not that simple. Ending a significant relationship is never easy. It's even harder when you've been isolated from your family and friends, psychologically beaten down, financially controlled, and physically threatened. If you're trying to decide whether to stay or leave, you may be feeling confused, uncertain, frightened, and torn. Maybe you're still hoping that your situation will change or you're afraid of how your partner will react if he discovers that you're trying to leave. One moment, you may desperately want to get away, and the next, you may want to hang on to the relationship. Maybe you even blame yourself for the abuse or feel weak and embarrassed because you've stuck around in spite of it. Don't be trapped by confusion, guilt, or self-blame. The only thing that matters is your safety. Read this book, this is a woman's journey out of abuse!

Unintended Consequences of Domestic Violence Law - Heather Nancarrow 2019-09-07 This book addresses the intersection of two current major concerns in Australia: law and justice responses to domestic violence - including harsher punitive measures - and the over-representation of Indigenous Australians in the criminal justice system, which are similar concerns in New Zealand, Canada and
the US. Nancarrow re-conceptualises typologies of violence and provides a means of understanding and explaining female use of violence without undermining the hard-won gains of the women’s movement. It does, however, argue for a paradigm shift, which has implications for every aspect of the system we have built to stop men’s violence against women (law, police policy and practice, counselling and advocacy for victims, and interventions for those who perpetrate violence). The book is based on quantitative and qualitative research and explores the nature of Indigenous intimate partner violence and the types of violence that domestic violence law sought to address.

The Effects of Domestic Violence on Children- Diane S. Powell 1996

Domestic Violence and Child Protection- Nicky Stanley 2006-01-30 How do you respond simultaneously to the needs of adults experiencing domestic violence and the specific needs of their children? Domestic Violence and Child Protection explores the challenges of working effectively in this complex field and offers positive models for practice. Leading practitioners and researchers outline the essential safety considerations for children, adult victims and child protection workers, and stress the importance of children's experiences, using children’s own words to describe their diverse needs. The contributors offer examples of good practice in prevention, intervention and recovery, drawn from international settings. They highlight new directions for policy and practice, and consider whether these might be achieved through increased communication and coordination between agencies, or by developing multiprofessional agencies that are able to offer integrated responses. Individual chapters address child abduction, legal issues concerning child contact arrangements, and dealing with abuse in the context of divorce. Including perspectives from social services, health services and the voluntary sector, this book is a valuable source of information and ideas on how to work safely and sensitively with children living with domestic violence and will be a key reference for social workers, health professionals and policy makers.

Trauma and Survivor Syndrome- Phd Msw Sherry Lewis Henry 2012-06-01 Most people are aware of the Jewish Holocaust, the German concentration camps and the slaughter of thirteen million people. At the conclusion of World War II, many of the survivors of the camps came to New York, where physicians and psychiatrists worked with them to transition back to normalcy. These patients all shared symptoms, new to the medical field at the time, broadly called Survivor Syndrome and explained in the book, Massive Psychic Trauma, edited by Dr. Henry Krystal, NY, 1968. Twenty years later, Survivor Syndrome began to be associated with the symptoms of domestic violence within the home. TRAUMA & Survivor Syndrome explains these specific symptoms, differentiates them from post-traumatic-stress-disorder symptoms, and gives a case study of a child-witness to domestic violence who later, under unique circumstances, presented with the symptoms of Survivor Syndrome. Survivor Syndrome material derived from Dr. Henry Krystal's Massive Psychic Trauma, 1968. About the Author: Sherry Lewis Henry PhD, MSW is a retired clinical social worker. She was motivated to write TRAUMA & Survivor Syndrome by the desire and need to investigate her mother's murder, despite the obvious cover-up. Seeking for Truth became a healing journey, which led her to Israel. There, among Holocaust survivors and their progeny, she found peers, validation, and existential restoration. Dr. Viktor Frankl's words rang true, The Survivor's Mission is twofold: healing of man-made, deliberate trauma for others and oneself is an on-going, life-long quest. It Is Good To Be a Seeker, but sooner or later a Seeker must give that which he has found, unto the world, to whomever will receive it. Domestic Violence Cross Cultural Perspective- M. Basheer Ahmed M.D. 2009-07-28 Domestic violence is a global phenomenon occurring among people of all races, ages, social economic status, educational and religious backgrounds. Family roles, values, customs and expectations are deeply rooted within a persons culture and religious traditions. As our society becomes increasingly multi-cultural, it is critical that we understand domestic violence within a cross-cultural context. Such an understanding will enable us to develop culturally appropriate interventions in addressing the issue of domestic violence in our communities. Many community and religious leaders are not familiar of the incidence of domestic violence among immigrant population and lack the knowledge of the effect of domestic violence on the victims, their children, the legal implications and the resources available for them. This book is written for health professionals, religious and community leaders in a simple language to make them familiar with some unique feature of people following different religions and cultures.
