Melville's 1889 novella 'Benito Cereno' follows a sea captain, Amasa Delano, and his crew on the Bachelor's Delight as it is approached by another, rather battered-looking ship, the San Dominick. Upon boarding the San Dominick, Delano is immediately greeted by white sailors and black slaves begging for supplies. An inquisitive Delano ponders the mysterious social atmosphere aboard the badly bruised ship and notes the figurehead which is mostly concealed by a tarpaulin revealing only the inscription "Follow your leader."

Benito Cereno, Bartleby: the Scrivener, And, the Encantadas

Herman Melville 2005-01-01 DIV

Benito Cereno, is a harrowing tale of slavery and revolt aboard a Spanish ship and is regarded by many as Melville's finest short story. First written as magazine pieces and later published in The Piazza Tales, Bartleby (also called Bartleby, the Scrivener) is a haunting moral allegory set in the business world of 19th century New York. The Encantadas, or The Enchanted Isles, is a sea story.

Billy Budd, Sailor

Herman Melville 2021-07-20 DIV

A beautifully designed, classic edition of Melville's original tale...discovered unfinished in the author's desk shortly after his death. Billy Budd, a cheerful, good looking sailor with a natural charisma and innocence that makes him popular with the crew, is aboard a British ship during the Napoleonic wars. His only physical defect is a stutter which grows worse when under intense stress. Budd arouses the antagonism of the ship's bitter master-at-arms, John Claggart, who falsely accuses Billy of conspiring to mutiny. Billy, dumbfounded by the accusation, becomes unable to defend himself because of his stuttering and in frustration strikes the lying Claggart with a blow so powerful that it kills the man instantly. In the ensuing trial Melville explores good and evil, justice and mercy, right and wrong, and natural law versus the ship's Captain recognizes the innocence of Budd's intent, but the law of mutiny requires him to sentence Billy to be hanged. Billy Budd, Sailor is the last novel written by American writer Herman Melville. Beginning the original work in 1888, it was left unfinished at the time of his death in 1891, remaining unpublished until 1924. Melville scholars engaged in study and scrupulous research of the book for many years that resulted in this final text. This classic edition offers all lovers of literature the best and most authentic version of the American storyteller's final masterpiece, which has been acclaimed as second only to Moby Dick among Melville's Work.

Three Shorter Novels of Herman Melville. (Benito Cereno, Bartleby the Scrivener, The Encantadas.) With Critical and Biographical Material by Joseph Schiffman-Herman Melville 1962

Bartleby & Benito Cereno-Herman Melville 2020-12-30 "Bartleby, the Scrivener" - An elderly Manhattan lawyer with a comfortable business in legal documents has two scriveners employed, but an increase in business leads him to advertise for a third. He hires the forlorn-looking Bartleby in the hope that his calmness will soothe the irascible temperaments of the other two. An office boy nicknamed Ginger Nut completes the staff. At first, Bartleby produces a large volume of high-quality work, but one day, when asked to help proofread a document, Bartleby answers with what soon becomes his perpetual response to every request: "I would prefer not to." "Benito Cereno" is a tale about the revolt on a Spanish slave ship captained by Don Benito Cereno. In 1799 off the coast of Chile, Captain Amasa Delano of the American sealer and merchant ship Bachelor's Delight visits the San Dominick, a Spanish slave ship apparently in distress. After learning from its captain Benito Cereno that a storm has taken many crewmembers and provisions, Delano offers to help out. He notices that Cereno acts awkwardly passive for a captain and the slaves display remarkably inappropriate behavior, and though this piques his suspicion he ultimately decides he is being paranoid. When he leaves the San Dominick and captain Cereno jumps after him, he finally discovers that the slaves have taken command of the ship, and forced the surviving crew to act as usual.

Billy Budd, Sailor and Selected Tales-Herman Melville 2009-02-26 "Truth uncompromisingly told will always have its ragged edges." So wrote Melville of Billy Budd, Sailor, among the greatest of his works and, in its richness and ambiguity, among the most problematic. As the critic E. L. Grant writes, "In this short history of the impressment and hanging of a handsome sailor-boy are to be discovered problems as profound as those which puzzle us in the pages of the Gospels." Outwardly a compelling narrative of events aboard a British man-of-war during the turmoil of the Napoleonic Wars, Billy Budd, Sailor is a nautical recasting of the Fall, a parable of good and evil, a meditation on justice and political governance, and a searching portrait of three extraordinary men. The passion it has aroused in its readers over the years is a measure of how deeply it addresses some of the fundamental questions of experience that every age must reexamine for itself. The selection in this volume represents the best of Melville's shorter fiction, and uses the most authoritative texts. The eight shorter tales included here were composed during Melville's years as a magazine writer in the mid 1850's and establish him, along with Hawthorne and Poe, as the greatest American story writer of his age. Several of the tales - Bartleby the Scrivener, Benito Cereno, The Encantadas, The Paradise of Bachelors and The Tartarus of Maids - are acknowledged masterpieces of their genres. All show Melville a master of irony, point-of-view, and tone whose fables ripple out in nearly endless circles of meaning. Melville - Andrew Delbanco 2013-02-20 If Dickens was nineteenth-century London personified, Herman Melville was the quintessential American. With a historian’s perspective and a critic’s insight, award-winning author Andrew Delbanco marvelously demonstrates that Melville was very much a man of his era and that he recorded — in his books, letters, and marginalia; and in conversations with friends like Nathaniel Hawthorne and with his literary cronies in Manhattan — an incomparable chapter of American history. From the bawdy storytelling of Typee to the spiritual preoccupations building up to and beyond Moby Dick, Delbanco brilliantly illuminates Melville’s life and work, and his crucial role as a man of American letters.

Bartleby, the Scrivener Illustrated - Herman Melville 2021-04-16 "Bartleby, the Scrivener is a short story by the American writer Herman Melville, first serialized anonymously in two parts in the November and December 1853 issues of Putnam's Magazine, and reprinted with minor textual alterations in his The Piazza Tales in 1856. In the story, a Wall Street lawyer hires a new clerk who, after an initial bout of hard work, refuses to make copies or do any other task required of him, with the words, "I would prefer not to". Numerous critical essays have been published about the story, which scholar Robert Milder describes as "unquestionably the masterpiece of the short fiction" in the Melville canon.

**Comparative Study of Herman Melville's Moby-Dick, Benito Cereno and Bartleby, the Scrivener**—Liya Liu 2015 “This is a comparative study of three of Herman Melville's novels: Moby-Dick (1851), Benito Cereno (1855) and Bartleby, the Scrivener (1853). Though these three novels seem to be loosely associated, I argue that they are closely connected. The three characters, Ahab, Babo and the lawyer, all demonstrate a will to achieve a goal. Ahab wants to take revenge on Moby Dick; Babo schemes to go back to Senegal; the lawyer, a capitalist representative, aims to earn more money. In the process of achieving their purposes, they closely interact with their surroundings, including people and objects. In my study, I compare Ahab, Babo and the lawyer concerning their interactions with objects and people. I further analyze Melville's intentions of drawing on historical figures and events. Ahab treats the crew, the Pequod and the whale as his physical supplements. Instead of killing Moby Dick, he ends up becoming a part of the whale. Babo directs the staged farce by using the others as his arms and legs. The lawyer also displays a tendency to treat his copyists as his physical extensions. As former studies suggest, Ahab, Babo and the lawyer all have their prototypes. Ahab's physical features resemble John C. Calhoun, the author of "the war between the United States and Mexico". Babo represents the slave revolt leader Mure. Herman Melville is the lawyer's prototype. Although these three novels deal with different political metaphors, they converge in their shared critique of capitalism. That is capitalist corrupting influences on the human mind and human relations.”

**The Piazza Tales**—Herman Melville 2020-05-15 When I removed into the country, it was to occupy an old-fashioned farm-house, which had no piazza—a deficiency the more regretted, because not only did I like piazzas, as somehow combining the coziness of in-doors with the freedom of out-doors, and is so pleasant to inspect your thermometer there, but the country round about was such a picture, that in berry time no boy climbs hill or crosses vale without coming upon easels planted in every nook, and sun-burnt painters painting there. A very paradise of painters. The circle of the stars cut by the circle of the mountains. At least, so looks it from the house; though, once upon the mountains, no circle of them can you see. Had the site been [pg 002] chosen five rods off, this charmed ring would not have been. The house is old. Seventy years since, from the heart of the Hearth Stone Hills, they quarried the Kaaba, or Holy Stone, to which, each Thanksgiving, the social pilgrims used to come. So long ago, that, in digging for the foundation, the workmen used both spade and axe, fighting the Troglodytes of those subterranean parts-sturdy roots of a sturdy wood, encamped upon what is now a long land-slide of sleeping meadow, sloping away off from my poppy-bed. Of that knit wood, but one survivor stands—an elm, lonely through steadfastness. Whoever built the house, he builded better than he knew; or else Orion in the zenith flashed down his Damocles' sword to him some starry night, and said, "Build there." For how, otherwise, could it have entered the builder's mind, that, upon the clearing being made, such a purple prospect would be his?—nothing less than Greylock, with all his hills about him, like Charlemagne among his peers. Now, for a house, so situated in such a country, to have no piazza for the convenience of [pg 003] those who might desire to feast upon the view, and take their time and ease about it, seemed as much of an omission as if a picture-gallery should have no bench; for what but picture-galleries are the marble halls of these same limestone hills?—galleries hung, month after month anew, with pictures ever fading into pictures ever fresh. And beauty is like piety-you cannot run and read it; tranquillity and constancy, with, now-a-days, an easy chair, are needed. For though, of old, when reverence was in vogue, and indolence was not, the devotees of Nature, doubtless, used to stand and adore-just as, in the cathedrals of those ages, the worshipers of a higher Power did-yet, in these times of failing faith and feeble knees, we have the piazza and the pew.
