Motivation, attitude, and language learning - ScienceDirect
Jan 01, 2011 - The term motivation in a second language learning context is seen according to Gardner (1985) as “referring to the extent to which the individual works or strives to learn the language because of a desire to do so and the satisfaction experienced in this activity (p.10).”

The Importance of Motivation in Language Learning | EFLL
However, motivation in learning a second or foreign language is not as simple as we think since motivation is complex and has a “multifaceted nature” (Dörnyei, 1998 p.118). Furthermore, motivation is dynamic, which means that there are ups and downs during the process of language learning, as Dornyei (2001) conceptualized in the three

Motivation - Wikipedia
Definition. Motivation is commonly defined as what explains why people or animals initiate, continue or terminate a certain behavior at a particular time. Motivational states come in various degrees of strength. The higher the degree, the more likely it is that the state has an influence on behavior. This is often linked to forces acting from within the agent that result in goal-directed

What Motivation Theory Can Tell Us About Human Behavior
Apr 17, 2021 - Motivation is the force that initiates, guides, and maintains goal-oriented behaviors. It is what causes us to take action, whether to grab a snack to reduce hunger or enroll in college to earn a degree. The forces that lie beneath motivation can be biological, social, emotional, or cognitive in nature. Let's take a look at each one.

Damage to these areas results in a decreased motivation to engage in sexual behavior while leaving the ability to do so intact (Figure 10.15) (Everett, 1990). Similar dissociations of sexual motivation and sexual ability have also been observed in the female rat (Becker, Rudick, & Jenkins, 2001; Jenkins & Becker, 2001).

The Vital Importance and Benefits of Motivation
Nov 25, 2021 - The contemporary research on motivation shows that intrinsic motivation that originates from internal motives is often experienced as more immediate and potent then extrinsic motivation. Today we know that intrinsic motivation affects the quality of behavior more, such as school work, while extrinsic motivation influences the quantity of

Functionalism | Internet Encyclopedia of Philosophy
In particular, the original motivation for functionalism comes from the helpful comparison of minds with computers. But that is only an analogy. The main arguments for functionalism depend on showing that it is superior to its primary competitors: identity theory and behaviorism.
