Internet and Digital Economics Eric Broussseau 2007-06-28 How are our societies being transformed by internet and digital economics? This book provides an accessible introduction to the economics of the internet and a comprehensive account of the mechanisms of the digital economy. Key issues are analysed, including the development of open source software and online communities, peer-to-peer and online sharing of cultural goods, electronic markets and the rise of new information intermediaries, e-retailing and e-banking. Anglais Sel I bet you can! Michelle Julliet 2018-03-08 White Poison Kayembı. L. T. Nawe 2006-09-26 White Poison is probably the strongest and most reasonable appeal ever addressed to the African continent, for its spiritual liberation, and therefore its real independence. With non refutable historical facts, the author calls upon his African brothers and sisters to break down the chains in which colonial christian Europe still oppresses them. He encourages them to find back the glory and the values of their own ancient spiritual heritage. This book has the power to revolutionize spiritual life in Africa. This book is a new religious message which offers to Africans the keys for their real spiritual decolonization, a real new authentic gospel for Africa. An intense call for Africa to wake up. You read it, and you will never again be the same.
