Our Story Rao Pingru 2018-05-08 Begun by the author when he was eighty-seven years old and mourning the loss of his wife, Our Story is a graphic memoir like no other: a celebration of a marriage that spanned the twentieth century in China, told in vibrant, original paintings and prose. Rao Pingru was twenty-four-year-old soldier when he was reintroduced to Mao Meitang, a girl he’d known in childhood and now the woman his father had arranged for him to marry. One glimpse of her through a window as she put on lipstick was enough to capture Pingru’s heart: a moment that sparked a union that would last almost sixty years. Our Story is Pingru and Meitang’s epic but unassuming romance. It follows the couple through the decades, in both poverty and good fortune—looking for work, opening a restaurant, moving cities, mending shoes, raising their children, and being separated for seventeen years by the government when Pingru is sent to a labor camp. As the pair ages, China undergoes extraordinary growth, political turmoil, and cultural change. When Meitang passes away in 2008, Pingru memorializes his wife and their relationship the only way he knows how: through painting. In an outpouring of love and grief, he puts it all on paper. Spanning
1922 through 2008, Our Story is a tale of enduring love and simple values that is at once tragic and inspiring: an old-fashioned story that unfolds in a nation undergoing cataclysmic change. (With gorgeous full-color illustrations throughout, and a distinctive exposed spine emulating the original Chinese design.)

**Machine Habitus** Massimo Airoldi 2021-12-13 We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely – on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoldi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The ‘machine habitus’ is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

**Pocket Change for Life** Akila Mukarramma 2005-06-01 Pocket Change is a book of wisdom accumulated through life's challenges to make you think. The choices we make are not only crucial to our lives, but to others as well. For this reason alone, we should be considerate of each other. We many times question our existence because of the strenuous task we encounter. One thing to remember is every problem has a solution. We must always search ourselves for error, that we may keep an open mind to the truth. This is the responsibility of life. **Rav Kook** Yehudah Mirsky 2014-02-11 DIV Rav Abraham Isaac Kook (1865–1935) was one of the most influential—and controversial—rabbis of the twentieth century. A visionary writer and outstanding rabbinic leader, Kook was a philosopher, mystic, poet, jurist, communal leader, and veritable saint. The first chief rabbi of Jewish Palestine and the founding theologian of religious Zionism, he struggled to understand and shape his revolutionary times. His life and writings resonate with the defining tensions of Jewish life and thought. A powerfully original thinker, Rav Kook combined strict traditionalism and an embrace of modernity, Orthodoxy and tolerance, piety and audacity, scholasticism and ecstasy, and passionate nationalism with profound universalism. Though little known in the English-speaking world, his life and teachings are essential to understanding current Israeli politics, contemporary Jewish spirituality, and modern Jewish thought. This biography, the first in English in more than half a century, offers a rich and insightful portrait of the man and his complex legacy. Yehudah Mirsky clears away widespread misunderstandings of Kook’s ideas and provides fresh insights into his personality and worldview. Mirsky demonstrates how Kook's richly erudite, dazzlingly poetic writings convey a breathtaking vision in which "the old will become new, and the new will become holy." /div

**Nixon and Mao** Margaret MacMillan 2008-03-11 Margaret MacMillan, praised as “a superb writer who can bring history to life” (The Philadelphia Inquirer), brings her extraordinary gifts to one of the most important subjects today—the relationship
between the United States and China—and one of the most significant moments in modern history. In February 1972, Richard Nixon, the first American president ever to visit China, and Mao Tse-tung, the enigmatic Communist dictator, met for an hour in Beijing. Their meeting changed the course of history and ultimately laid the groundwork for the complex relationship between China and the United States that we see today. That monumental meeting in 1972—during what Nixon called “the week that changed the world”—could have been brought about only by powerful leaders: Nixon himself, a great strategist and a flawed human being, and Mao, willful and ruthless. They were assisted by two brilliant and complex statesmen, Henry Kissinger and Chou En-lai. Surrounding them were fascinating people with unusual roles to play, including the enormously disciplined and unhappy Pat Nixon and a small-time Shanghai actress turned monstrous empress, Jiang Qing. And behind all of them lay the complex history of two countries, two great and equally confident civilizations: China, ancient and contemptuous yet fearful of barbarians beyond the Middle Kingdom, and the United States, forward-looking and confident, seeing itself as the beacon for the world. Nixon thought China could help him get out of Vietnam. Mao needed American technology and expertise to repair the damage of the Cultural Revolution. Both men wanted an ally against an aggressive Soviet Union. Did they get what they wanted? Did Mao betray his own revolutionary ideals? How did the people of China react to this apparent change in attitude toward the imperialist Americans? Did Nixon make a mistake in coming to China as a supplicant? And what has been the impact of the visit on the United States ever since? Weaving together fascinating anecdotes and insights, an understanding of Chinese and American history, and the momentous events of an extraordinary time, this brilliantly written book looks at one of the transformative moments of the twentieth century and casts new light on a key relationship for the world of the twenty-first century.

**Age of Ambition: Chasing Fortune, Truth, and Faith in the New China**  
Evan Osnos 2014-05-13 Pulitzer Prize in General Nonfiction finalist Winner of the 2014 National Book Award in nonfiction. An Economist Best Book of 2014. A vibrant, colorful, and revelatory inner history of China during a moment of profound transformation. From abroad, we often see China as a caricature: a nation of pragmatic plutocrats and ruthlessly dedicated students destined to rule the global economy—or an addled Goliath, riddled with corruption and on the edge of stagnation. What we don't see is how both powerful and ordinary people are remaking their lives as their country dramatically changes. As the Beijing correspondent for The New Yorker, Evan Osnos was on the ground in China for years, witness to profound political, economic, and cultural upheaval. In Age of Ambition, he describes the greatest collision taking place in that country: the clash between the rise of the individual and the Communist Party's struggle to retain control. He asks probing questions: Why does a government with more success lifting people from poverty than any civilization in history choose to put strict restraints on freedom of expression? Why do millions of young Chinese professionals-fluent in English and devoted to Western pop culture-consider themselves "angry youth," dedicated to resisting the West's influence? How are Chinese from all strata finding meaning after two decades of the relentless pursuit of wealth? Writing with great narrative verve and a keen sense of irony, Osnos follows the moving stories of everyday people and reveals life in the new China to be a battleground between aspiration and authoritarianism, in which only one can prevail.

**Alone In Vietnam**

*The Man Awakened from Dreams* Henrietta Harrison 2005-01-30 In this beautifully crafted study of one emblematic life, Harrison addresses large themes in Chinese history while conveying with great immediacy the textures and rhythms of everyday life in the countryside in the late-nineteenth and early-twentieth centuries. Liu Dapeng was a provincial degree-holder who never held government office. Through the story of his family, the author illustrates the decline of the countryside in relation to the cities as a result of modernization and the transformation of Confucian ideology as a result of these changes. Based on nearly 400 volumes of Liu's diary and other writings, the book illustrates what it was like to study in an academy and to be a schoolteacher; the pressures of changing family relationships, the daily grind of work in industry and agriculture, people's experience with government, and life under the Japanese occupation.

Rising Son Janita Lo 2011-05 Daughter recounts father's life as Chinese legend in historical novel. Fulfilling her father's last wish, Janita Lo shares his real life stories in "Rising Son: Reflections of a Chinese Gentleman Warrior." HOUSTON - Based on the true first-hand accounts of Khan Ling and his wife, Che Yu, Janita Lo has lovingly combined her parent's stories into a cohesive work of historical fiction, "Rising Son: Reflections of a Chinese Gentleman Warrior" (ISBN: 0615426042). "I am Khan Ling, son of Khan Bei, a descendant of Genghis Khan; the only
heir of my grandfather, Khan Gong Shun, Royal Army Commander of the Ch'ing Dynasty and of my grandmother, Princess May Szee, granddaughter of the Emperor Xianfeng...These are merely the particulars of my lineage. It is not so much the people, but rather the circumstances and my own choices that have made me who I am today." Thus begins the story of Khan Ling. In "Rising Son: Reflections of a Chinese Gentleman Warrior," Lo tells the story of her father, Khan Ling, in his own voice, bringing life to the stories he told her as a child. Ranging through the turmoil of late 1800's Ch'ing (Qing) Dynasty in China to the early 19th century, the story of Khan Ling is a tale of bravery, excitement and intrigue, but also a tale of loss and loneliness. Lo, speaking in the voice of her father, aims to express the longings of a young boy growing to adulthood in the tumultuous era before and including World War II. Khan was born in a Buddhist temple to a Chinese father and a Japanese mother. After the death of his father, Khan was reared at the temple by the monks who lived and studied there. Though surrounded by caring teachers, he missed the comfort and care of his mother and father. Later on he would lose his mother to tragedy. These events would color his life and exploits throughout a long life. Khan Ling served in the Chinese intelligence department under Chiang Kai-shek in the conflict with Japan. During this time, China was debating the role of Western influences as the country shifted from dynastic rule into an industrialized society. Throughout these events, Ling struggled with the internal conflict of his half-Chinese and half-Japanese lineage, though he did eventually place his loyalty firmly with China. He fought against the Japanese underground and was able to help release many Chinese families held captive by the Japanese in Hong Kong from 1943-1945. "This is more than a story about a man of heroic achievement," says Lo. "It's a study of the human soul, about young love, romance, chivalry, loss, longing and the desire for the nurturing of a family." This story provides a rich, textured look at the human experience as well as the exciting, enigmatic life of a local legend from royal lineage whose name was omitted from Chinese history books due to the misconceptions that surrounded him. Honestly and with historical accuracy, Lo takes her readers to Khan's China, where danger and opportunity walked hand in hand; where a young Chinese gentleman fulfilled his destiny. Lo lets readers experience the mysterious Chinese culture: patriotism, heroism, bravery, compassion, love, romance and the power of the human spirit under extraordinary circumstances in "Rising Son: Reflections of a Chinese Gentleman Warrior." The historical information in this manuscript is authentic. The main characters heroic and humanitarian accomplishments are painstakingly recounted through the tales told by her late father, Khan Ling. "Rising Son," would appeal to readers who enjoy the real-live drama of historical accounts and personal memoirs. Educational and enlightening in so many respects, "Rising Son" is a timely addition to the literary world and contemporary reader's bookshelf especially considering the growing importance of China in our everyday lives.

**Everyday Use** Alice Walker 1994 Presents the text of Alice Walker's story "Everyday Use"; contains background essays that provide insight into the story; and features a selection of critical response. Includes a chronology and an interview with the author. **Tao Te Ching** Lao Tzu 2015-07-05 Chinese people are known for being philosophical. A person doesn't necessarily have to be religious in order to be philosophical. You just have to learn the best ways to live your life so that you can have a more prosperous future. A classic Chinese manual entitled "Tao Te Ching" teaches people the art of living and the path you must take in order to find fulfillment in your life. This classic Chinese text was written by a sage named Laozi, also known as Lao Tzu. Laozi means "Old Master" in Chinese. Some people like to refer to this classic Chinese text as Laozi instead of Tao Te Ching because they have so much respect for the author. The sage, Laozi, is believed to
have lived around 600 B.C. In his professional life, he worked as a
record keeper for the Zhou Dynasty Court. However, historians
are still unsure about the exact date and time when the Tao Te
Ching was actually written. The only thing they know is that the
oldest Chinese texts that were excavated dates back to sometime
in the late 4th century B.C. Even though they were originally
written in the 6th century, the texts that were excavated in the
4th century are likely rewritten texts. The Tao Te Ching is one of
the main Chinese classic texts that promote the religious and
philosophical principles of Taoism. It is the most fundamental
book of text that is studied by all Taoists. It is also a strong
influence on other Chinese schools that teach Confucianism,
Legalism and Chinese Buddhism. Chinese painters, poets,
gardeners and calligraphers use the philosophies of the book as a
source of inspiration. The influence of the Tao Te Ching has
spread far throughout Eastern Asia and is one of the most
translated books ever written in the history of literature. In
Roman culture, the book was transcribed using the Wade-Giles
Romanization system. They transcribed the title as "Daodejing."
The words "Dao" and "Tao" both mean "the way." The words "De"
and "Te" both mean inner strength or virtuosity. And finally, the
words "Jing" and "Ching" mean "classic" or "the great book."
Therefore, the translation of Tao Te Ching and Daodejing is said
to be "The Classic Way to Inner Strength." In other words, if you
learn the philosophies in this book then you will have the
knowledge of finding the right path to strength and happiness.
Tao Te Ching is not a long book to read by any means. It is only
5,000 Chinese characters long with about 81 very brief sections
or chapters. The writing is of a classical form of Chinese called
zhuanshu. As the centuries went by, the later versions were
written in Lishu and Kaishu. As for the chapters, no one knows if
the separated chapters were originally placed there by Laozi or if
they were added later on. Some people think they were added
later on as a way to help memorize the information and add
commentary. The whole book is divided into two main parts. The
first part is the Tao Ching, which goes from chapter 1 to chapter
37. The second part is the Te Ching, which goes from chapter 38
to chapter 81. Some even refer to this style of writing as laconic
and poetic because of its brief chapters and intentional
contradictions. This writing is strategic in a sense because it
creates memorable phrases and then forces the reader to create
their own reconciliations from all the supposed contradictions.
This is why it takes some people their entire lives to fully
understand the message behind the text. For others, they never
fully grasp it.

Learning from SARS

Institute of Medicine 2004-04-26 The
emergence of severe acute respiratory syndrome (SARS) in late
2002 and 2003 challenged the global public health community to
confront a novel epidemic that spread rapidly from its origins in
southern China until it had reached more than 25 other countries
within a matter of months. In addition to the number of patients
infected with the SARS virus, the disease had profound economic
and political repercussions in many of the affected regions.
Recent reports of isolated new SARS cases and a fear that the
disease could reemerge and spread have put public health
officials on high alert for any indications of possible new
outbreaks. This report examines the response to SARS by public
health systems in individual countries, the biology of the SARS
coronavirus and related coronaviruses in animals, the economic
and political fallout of the SARS epidemic, quarantine law and
other public health measures that apply to combating infectious
diseases, and the role of international organizations and scientific
cooperation in halting the spread of SARS. The report provides an
illuminating survey of findings from the epidemic, along with an
assessment of what might be needed in order to contain any
future outbreaks of SARS or other emerging infections.

The Long Game Rush Doshi 2021-06-11 For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In The Long Game, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

The Far Right Today Cas Mudde 2019-10-25 The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key
political challenges of our time.

**Whole** Brian Seth Hurst 2012-10-14 What do you do after life has handed you a wake-up call? Author Brian Seth Hurst experienced a significant professional setback, but, rather than “soldier on,” he recognized it as a profound opportunity to acknowledge a deeper foundation at work in his life. It is the affirmation that there is sheer power in what one believes, and, for better or worse, those beliefs are the foundation for the reality we create. The question of “Why?” began a thirty-day inquiry and adventure for Hurst into the unknown. The result is the book W H O L E - a collection of powerful essays that examine how beliefs serve, or do not serve, us in our lives, how those beliefs can be transformed to change our circumstances, and the power of the ultimate connection to Source. What do you do after life has handed you a wake-up call? If you decide to remain awake, then you begin looking at your life. W H O L E is your companion as you review the past, balance all areas of your life, and begin to create anew. W H O L E prompts a very personal, progressive, and conscious examination of concepts and belief systems in every area of your life, ranging from relationships, work and time, to money, the environment, morality and your purpose. It asks provocative and thoughtful questions that lead to understanding. How do you reconcile everything that has happened and is happening in your life with the one you truly want? The good and the bad, the joy and the hurt, the wins and the losses - all those parts form the experience of your life and your identity. Yet, you are much greater than the sum of all those parts. W H O L E allows you to make sense of the pieces of your life as part of the greater being that is You. W H O L E presents you with the opportunity to reconcile the past, arrive wholly connected in the present, and create your future. W H O L E literally answers the question, “What was I thinking?” “To know “whole” in the duality of your reality, you must know broken. To know broken is to recognize that you are, always have been, and always will be WHOLE.”

**The Myth of Chinese Capitalism** Dexter Roberts 2020-03-10 The untold story of how restrictive policies are preventing China from becoming the world’s largest economy. Dexter Roberts lived in Beijing for two decades working as a reporter on economics, business and politics for Bloomberg Businessweek. In The Myth of Chinese Capitalism, Roberts explores the reality behind today’s financially-ascendant China and pulls the curtain back on how the Chinese manufacturing machine is actually powered. He focuses on two places: the village of Binghuacun in the province of Guizhou, one of China’s poorest regions that sends the highest proportion of its youth away to become migrants; and Dongguan, China’s most infamous factory town located in Guangdong, home to both the largest number of migrant workers and the country’s biggest manufacturing base. Within these two towns and the people that move between them, Roberts focuses on the story of the Mo family, former farmers-turned-migrant-workers who are struggling to make a living in a fast-changing country that relegates one-half of its people to second-class status via household registration, land tenure policies and inequality in education and health care systems. In The Myth of Chinese Capitalism, Dexter Roberts brings to life the problems that China and its people face today as they attempt to overcome a divisive
system that poses a serious challenge to the country’s future development. In so doing, Roberts paints a boot-on-the-ground cautionary picture of China for a world now held in its financial thrall.

**Tea War** Andrew B. Liu 2020-04-14 A history of capitalism in nineteenth- and twentieth-century China and India exploring the competition between their tea industries. Tea remains the world's most popular commercial drink today, and at the turn of the twentieth century, it represented the largest export industry of both China and colonial India. In analyzing the global competition between Chinese and Indian tea, Andrew B. Liu challenges past economic histories premised on the technical “divergence” between the West and the Rest, arguing instead that seemingly traditional technologies and practices were central to modern capital accumulation across Asia. He shows how competitive pressures compelled Chinese merchants to adopt abstract, industrial conceptions of time, while colonial planters in India pushed for labor indenture laws to support factory-style tea plantations. Further, characterizations of China and India as premodern backwaters, he explains, were themselves the historical result of new notions of political economy adopted by Chinese and Indian nationalists, who discovered that these abstract ideas corresponded to concrete social changes in their local surroundings. Together, these stories point toward a more flexible and globally oriented conceptualization of the history of capitalism in China and India.

**A Year Without "Made in China"** Sara Bongiorni 2010-12-28 A Year Without "Made in China" provides you with a thought-provoking and thoroughly entertaining account of how the most populous nation on Earth influences almost every aspect of our daily lives. Drawing on her years as an award-winning journalist, author Sara Bongiorni fills this book with engaging stories and anecdotes of her family's attempt to outrun China's reach—by boycotting Chinese made products—and does a remarkable job of taking a decidedly big-picture issue and breaking it down to a personal level.

**The Kingdom of Women** Choo WaiHong 2020-05-05 In a mist-shrouded valley on China's invisible border with Tibet is a place known as the "Kingdom of Women," where a small tribe called the Mosuo lives in a cluster of villages that have changed little in centuries. This is one of the last matrilineal societies on earth, where power lies in the hands of women. All decisions and rights related to money, property, land and the children born to them rest with the Mosuo women, who live completely independently of husbands, fathers and brothers, with the grandmother as the head of each family. A unique practice is also enshrined in Mosuo tradition—that of "walking marriage," where women choose their own lovers from men within the tribe but are beholden to none.

**Clint Eastwood’s America** Sam B. Girgus 2013-11-22 The steady rise of Clint Eastwood’s career parallels a pressing desire in American society over the past five decades for a figure and story of purpose, meaning, and redemption. Eastwood has not only told and filmed that story, he has come to embody it for many in his public image and film persona. Eastwood responds to a national yearning for a vision of individual action and initiative,
personal responsibility, and potential for renewal. An iconic director and star for his westerns, urban thrillers, and adventure stories, Eastwood has taken film art to new horizons of meaning in a series of masterpieces that engage the ethical and moral consciousness of our times, including Unforgiven, Million Dollar Baby, and Mystic River. He revolutionized the war film with the unprecedented achievement of filming the opposing sides of the same historic battle in Flags of Our Fathers and Letters from Iwo Jima, using this saga to present a sharply critical representation of the new America that emerged out of the war, a society of images and spectacles. This timely examination of Clint Eastwood’s oeuvre against the backdrop of contemporary America will be fascinating reading for students of film and popular culture, as well as readers with interests in Eastwood’s work, and American film and culture.
