Hapkido Scott Shaw 2011-12-20 Hapkido, “The Way of Coordination and Internal Power,” is one of the three major Korean martial arts. Founded in 1963 by Master Choi Young-Sul, it is a complete system of self-defense, encompassing striking, kicking, and grappling techniques. Conceptually, Hapkido techniques more closely parallel those of Aikido than Taekwondo. In fact, as the author describes, there is a parental link between the arts. In Hapkido: Korean Art of Self-Defense, Scott Shaw presents a precise description of the techniques, concepts, and applications of this Korean martial art of self-defense. Profusely illustrated with 220 clear photographs, this instructional hapkido book describes and depicts self-defense techniques against a variety of punches, holds, and kicks. Hapkido has been utilized by military and law enforcement agencies worldwide, but until now little has been written on it. This hapkido guide is one of the few in English to present the essential techniques of this fascinating Korean martial art. Chapters include: The History and Development of Korean Martial Arts The Evolution of Hapkido Danjon: The Center of Ki Hapkido Fundamentals Hapkido Self-Defense Techniques

A History of Korea Kyung Moon Hwang 2021-11-30 Dynamic and meticulously researched, A History of Korea continues to be one of the leading introductory textbooks on Korean history. Assuming no prior knowledge, Hwang guides readers from early state formation and the dynamic eras to the modern experience in both North and South Korea. Structured around episodic accounts, each chapter begins by discussing a defining moment in Korean history in context, with an extensive examination of how the events and themes under consideration have been viewed up to the present day. By engaging with recurring themes such as collective identity, external influence, social hierarchy, family and gender, the author introduces the major historical events, patterns and debates that have shaped both North and South Korea over the past 1500 years. This textbook is essential reading for undergraduate and postgraduate students of Korean or Asian history. The first half of the book covers pre-20th century history, and the second half the modern era, making it ideal for survey courses.

Goryeo Dynasty Kumja Paik Kim 2003 The Goryeo dynasty, the middle period in Korea’s traditional history, emerged from the disintegration of the Unified Silla dynasty and ended with the rise of the Joseon dynasty. This era of dynamic internal refinement was also marked by a contentious relationship with the tribal peoples north of Korea. A sophisticated aristocracy standardized government operations and cultivated artistic expression during the Goryeo dynasty. This book explores the period’s extraordinary production of ceramics, lacquer wares, Buddhist paintings and sculptures, illustrated manuscripts, and metal crafts in light of these themes. It serves a critical role in bringing this beautiful material to the West for the first time, and underscoring the richness and sophistication of the dynasty’s artistic traditions. This exhibition shows that the cultures of East Asia had significant commonalities, and also important differences, from country to country.

South Korea’s Middle Power Diplomacy in the Middle East Hae Won Jeong 2022-02-25 This book examines theoretical and empirical approaches to the study of middle powers with reference to South Korea’s bilateral relations with...
Iran, Saudi Arabia, United Arab Emirates and Iraq. It maps the development, political and diplomatic trajectories between South Korea and Iran, Saudi Arabia, United Arab Emirates and Iraq against the historical backdrop of ROK-US alliance and the rise of China. Jeong provides a nuanced analysis of the intersectionality of political economy and foreign policy analysis contextualizing state-building processes in ROK and the Middle Eastern countries. This accessible book is intended for students and scholars in area studies and international affairs, career diplomats, and South Korean businesses in the Middle East. It should also prove of practical value for journalists and policy makers who are interested in studying the nexus of domestic, regional and international factors that have configured South Korea’s Middle East policy.

**Buddhist Sculpture of Korea** Lena Kim 2007 Buddhist culture and thought have had a tremendous impact on the lives and thought of Korean people ever since the religion was introduced to the Korean peninsula in the late fourth century. Most of the time, the religion received strong state support for the construction of temples and pagodas and the making of Buddhist images for worship. At times, the religion encountered opposition, often for political reasons, but it continued to play an important role in the cultural and religious activities of the various strata of Korean society from the time of its introduction and it continues to remain in the mind of modern Koreans as well. Most of the research on Korean Buddhist sculpture is in Korean and some in Japanese, but very little in English. Therefore, this work is a significant resource for those interested in studying Korean Buddhist art. The author has tried to put Korean sculpture in the context of history, Buddhist teachings and iconography and makes stylistic comparisons with relevant examples from neighboring countries. This is a first of its kind work that will educate readers who are new to the unique qualities of Korean Buddhist sculpture, as well as provide helpful references to many of the scholarly articles written in Korean.

**The Handbook of Communication History** Peter Simonson 2013-01-03 The Handbook of Communication History addresses central ideas, social practices, and media of communication as they have developed across time, cultures, and world geographical regions. It attends to both the varieties of communication in world history and the historical investigation of those forms in communication and media studies. The Handbook editors view communication as encompassing patterns, processes, and performances of social interaction, symbolic production, material exchange, institutional formation, social praxis, and discourse. As such, the history of communication cuts across social, cultural, intellectual, political, technological, institutional, and economic history. The volume examines the history of communication history; the history of ideas of communication; the history of communication media; and the history of the field of communication. Readers will explore the history of the object under consideration (relevant practices, media, and ideas), review its manifestations in different regions and cultures (comparative dimensions), and orient toward current thinking and historical research on the topic (current state of the field). As a whole, the volume gathers disparate strands of communication history into one volume, offering an accessible and panoramic view of the development of communication over time and geographical places, and providing a catalyst to further work in communication history.

**Daitokuji** Gregory P. A. Levine 2005 The Zen Buddhist monastery Daitokuji in Kyoto has long been revered as a cloistered meditation centre, a repository of art treasures, and a wellspring of the “Zen aesthetic.” Gregory Levine’s Daitokuji unsettles these conventional notions with groundbreaking inquiry into the significant and surprising visual and social identities of sculpture, painting, and calligraphy associated with this fourteenth-century monastery and its enduring monastic and lay communities. The book begins with a study of Zen portraiture at Daitokuji that reveals the precariousness of portrait likeness; the face that gazes out from an abbot’s painting or statue may not be who we expect it to be.
or submit quietly to interpretation. By tracing the life of Daitokuji’s famed statue of the chanoyu patriarch Sen no Rikyō (1522-91), which was all but destroyed by the ruler Toyotomi Hideyoshi (1537-98) but survived in Rashōmon-like narratives and reconstituted sculptural forms, Levine throws light upon the contested status of images and their mytho-poetic potential. Levine then draws from the seventeenth-century journal of K-ogetsu S-ogan, Bokuseki no utushi, to explore practices of calligraphy connoisseurship at Daitokuji and the pivotal role played by the monastery’s abbots within Kyoto art circles. The book’s final section explores Daitokuji’s annual airings of temple treasures not merely as a practice geared toward preservation but also as a space in which different communities vie for authority over the artistic past. An epilogue follows the peripatetic journey of the monastery’s scrolls of the 500 Luohan from China to Japan, to exhibition and partial sale in the West, and back to Daitokuji. Illuminating canonical and heretofore ignored works and mining a trove of documents, diaries, and modern writings, Levine argues for the plurality of Daitokuji’s visual arts and the breadth of social and ritual circumstances of art making and viewing within the monastery. This diversity encourages reconsideration of stereotyped notions of “Zen art” and offers specialists and general readers alike opportunity to explore the fertile and sometimes volatile nexus of the visual arts and religious sites in Japan.

Korean Ceramics Kyŏng-suk Kang 2008 Korea boasts a ceramics history that dates back 10,000 years. It is distinguished by its infinite embrace of nature. Through a continued mutual exchange with China, Korea developed a ceramics style that captured the Korean spirit. The uniqueness of Korean ceramics stems from the austere humility of the earthenware, the jade-green color of Goryeo celadon, the wit of Joseon buncheong ware and the refined beauty of Joseon white porcelain.

Efficacious Underworld Cheeyun Lilian Kwon 2019-02-28 The Ten Kings hanging scrolls at Tokyo’s Seikadō Bunko Art Museum are among the most resplendent renderings of the Buddhist purgatory extant, but their origin and significance have yet to be fully explored. Cheeyun Kwon unfurls this exquisite set of scrolls within the existing Ten Kings painting tradition while investigating textual, scriptural, archaeological, and visual materials from East Asia to shed light on its possible provenance. She constructs a model scheme of the paintings’ evolution based on more than five hundred works and reveals channels of popularization, mass production, and agglomeration. The earliest images of the Ten Kings are found in the tenth-century sutra The Scripture on the Ten Kings, known to be the work of the monk Zangchuan. By the mid-twelfth century, typological conventions associated with the Ten Kings were widely established,
and paintings depicting them, primarily large-scale and stand-alone, became popular export commodities, spreading via land and sea routes to the Korean peninsula and the Japanese archipelago. An examination of materials in Korea suggests a unique development path for Ten Kings subject matter, and this—in conjunction with a close analysis of the Seikadō paintings—forms the core of Kwon’s book. Among the Korean works discussed is a woodblock edition of The Scripture on the Ten Kings from 1246. It is markedly different from its Chinese counterparts and provides strong evidence of the subject’s permutations during the Koryŏ period (918–1392), when Northern Song (960–1127) visual art and culture were avidly imported. In the Seikadō paintings, Northern Song figurals, architectural, landscape, and decorative elements were acculturated to the Koryŏ milieu, situating them in the twelfth to early thirteenth centuries and among the oldest and most significant surviving examples of Koryŏ Buddhist painting. Efficacious Underworld fills major lacunae in Korean, East Asian, and Ten Kings painting traditions while illuminating Korea’s contribution to the evolution of a Buddhist theme on its trajectory across East Asia. With its rich set of color reproductions and detailed analysis of textual and visual materials, this volume will invite significant revision to previously held notions on Koryŏ painting.

The Art of Buddhism Denise Patry Leidy 2009-10-06 As its teachings spread from the Indian subcontinent in all directions across Asia, Buddhism influenced every culture it touched—from Afghanistan to Korea, from Mongolia to Java. Buddhist art is a radiant reflection of the encounter of the Buddha’s teachings with the diverse civilizations that came under their sway. It is also an intriguing visual record of the evolution of Buddhist practice and philosophy over a period of more than two millennia. More than two hundred photographs provide the visual context for this tour of the world of Buddhist art. Included in the rich variety of forms are architecture and monumental art, statuary, paintings, calligraphy, fresco, brushwork, and textile arts. Denise Leidy’s guide is the perfect introductory text for all those intrigued by this splendid aesthetic tradition. It also an essential resource for all who seek to understand Buddhist art as teaching.

Aspiring to Enlightenment Richard D. McBride II 2020-08-31 Centered on the practice of seeking rebirth in the Pure Land paradise Sukhavati, the Amitābha cult has been the dominant form of Buddhism in Korea since the middle of the Silla period (ca. 300–935). In Aspiring to Enlightenment, Richard McBride combines analyses of scriptural, exegetical, hagiographical, epigraphical, art historical, and literary materials to provide an episodic account of the cult in Silla times and its rise in an East Asian context through the mutually interconnected perspectives of doctrine and practice. McBride demonstrates that the Pure Land tradition emerging in Korea in the seventh and eighth centuries was vibrant and collaborative and that Silla monks actively participated in a shared, international Buddhist discourse. Monks such as the exegete par excellence Wŏnhyo and the Yogācāra proponent Kyŏngng nông did not belong to a specific sect or school, but like their colleagues in China, they participated in a broadly inclusive doctrinal tradition. He examines scholarly debates surrounding the cults of Maitreya and Amitābha, the practice of buddhnusmṛti, the recollection of Amitābha, the “ten recollections” within the larger Mahāyāna context of the bodhisattva’s path of practice, the emerging Huayan intellectual tradition, and the influential interpretations of medieval Chinese Pure Land proponents Tanjōn and Shandao. Finally, his work illuminates the legacy of the Silla Pure Land tradition, revealing how the writings of Silla monks continued to be of great value to Japanese monks for several centuries. With its fresh and comprehensive approach to the study of Pure Land Buddhism, Aspiring to Enlightenment is important for not only students and scholars of Korean history and religion and East Asian Buddhism, but also those interested in the complex relationship between doctrinal writings and devotional practice in the...
