Munis Khorezmiĭ 1999-01-01 An extensively annotated translation of the Corpus Inscriptionum Iranicarum Corpus Inscriptionum Iranicarum offers a critical survey of both the supports and constraints of one of history's most heinous murderers in history, who was Genghis Khan. His actual name was Temujin, and the story of his success is that of the Mongol people; a loose collection of fractious tribes who tended livestock, considered bathing taboo, and possessed an unparalleled genius for horseback warfare. United under Genghis, a strategist of astonishing cunning and versatility, they could dominate any sedentary society they chose. Combining fast-paced accounts of battles with rich cultural background and the latest scholarship, Frank McLynn brings vividly to life the strange world of the Mongols, describes Temujin's rise from boyhood outcast to becoming Genghis Khan, and provides the most accurate and absorbing account yet of one of the most powerful men ever to have lived.

Visit www.luminosoa.org to learn more. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, The Persianate World traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian's interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended "Persographia," the domain of written Persian. Spanning the ages expansion and contraction, The Persianate World offers a critical survey of both the supports and constraints of one of history's key languages of global exchange.
