Individualized Education Program - Wikipedia
The Individualized Education Program (IEP) is a legal document under United States law that is developed for each public school child in the U.S. who needs special education. It is created through a team of the child’s parent(s) and district personnel who are knowledgeable about the child’s needs. IEPs must be reviewed every year to keep track of the child’s educational progress.

Dynamic Assessment Examples. Doing a speech-language assessment is a time-intensive process and I know that adding dynamic assessment to your assessment line-up can seem like you are adding lots of time to your evaluations, but that doesn’t have to be the case. While many of the studies on dynamic assessment use multiple 20-30-minute

Effects of music therapy and music-based interventions in
Nov 15, 2017 · Music therapy (MT) and music-based interventions (MBIs) are increasingly used for the treatment of substance use disorders (SUD). Previous reviews on the efficacy of MT emphasized the dearth of research evidence for this topic, although various positive effects were identified. Therefore, we conducted a systematic search on published articles examining effects ...

Individualized Education Programs (IEPs) (for Parents
The cover page of the IEP outlines the support services your child will receive and how often they will be provided (for example, occupational therapy twice a week). Support services might include special education, speech therapy, occupational or physical therapy, counseling, audiology, medical services, nursing, and vision or hearing therapy.
