Poison Study

Changing Poison into Medicine | Soka Gakkai (global)
Nichiren perceived that among the Buddhist sutras, it is the Lotus Sutra that teaches that Buddha nature is inherent in the life of absolutely everyone, including those normally thought incapable of attaining Buddhahood. To this end, Nichiren quotes an influential third-century Buddhist text that states that “[the Lotus Sutra] is like a great physician who can change poison into medicine.”

poison | Description, Classification, & Control | Britannica
poison, in biochemistry, a substance, natural or synthetic, that causes damage to living tissues and has an injurious or fatal effect on the body, whether it is ingested, inhaled, or absorbed or injected through the skin. Although poisons have been the subject of practical lore since ancient times, their systematic study is often considered to have begun during the 16th century, when ...
