Family Secret Gay Son

Family Secrets-Jean M Baker 2014-07-16 As a clinical psychologist, Jean Baker had always considered herself open-minded and tolerant, but found she wasn’t prepared for the revelation that her only two children were both gay. Family Secrets is an inspirational story of how she and her family learned to accept one another and overcome their internalized fears and prejudices as well as how they coped with a much greater challenge in their personal lives—HIV/AIDS. Family Secrets is more than a parenting memoir, however. It is a guide that draws upon research and scientific findings to capsize the myths and stereotypes that contribute to societal homophobia. It offers important insight into the developmental needs of gay children, and it discusses the issues faced by gay and lesbian youth and their families. Offering practical suggestions about how parents and schools can help gay, lesbian, and bisexual children grow up to be productive, psychologically healthy adults, Family Secrets discusses the effects of social prejudice and stigma on the social and emotional development of sexual minorities. As long as homophobia is running rampant in American society, gay children are going to be reluctant or afraid to confide in their parents, and parents will have trouble understanding and accepting homosexuality in their children. To end the secrecy and build open and healthy environments for all children and
adolescents, this book discusses: tactics for reducing homophobia in non-gay youths promoting tolerance and understanding of sexual minorities at home and in school the effects an AIDS death has on families “coming out” about HIV/AIDS discussing homosexuality with your children, regardless of whether or not they are gay or lesbian sexual orientation and the interaction of biology with experience Because Family Secrets is written from the viewpoint of a parent/psychologist, it offers insights into the developmental needs of gay and lesbian children in a way that no other book has done. School counselors, psychologists, marriage and family counselors, teachers, school administrators, and the parents and siblings of gays and lesbians will all benefit from reading this honest, helpful, and encouraging book.

**Social Work Practice with Lesbian, Gay, Bisexual, and Transgender People**-Gerald P. Mallon 2009-06-02 A new, more comprehensive edition of the classic Social Work text. Although the vast majority of LGBT persons are healthy, resilient, and hardy individuals who do not seek social work intervention, some have been or will be clients in social work agencies. Social Work Practice with Lesbian, Gay, Bisexual, and Transgender People is the updated classic text that has expanded its scope to include new content on practice with bisexual and transgender populations—and incorporated this content throughout. This informative book provides a knowledge base of practice that will better prepare students and practitioners for working sensitively, competently, and effectively with LGBT individuals. The text now covers content on LGBT populations as articulated by the National Association of Social Workers (NASW) and the Council on Social Work Education (CSWE). Comprehensive and practical, this unique text discusses the pragmatic aspects of social work with lesbian, gay, bisexual, and transgender people. It will improve and reinforce competent practice with LGBT persons and their families in multiple settings. Chapters focus on important topics such as: the profession’s core values and ethical principles identifying, analyzing, and resolving ethically challenging practice problems LGBT persons of color—heterosexism, racism, and sexism applying the life model and the stress-coping process the root of conflicts in allegiances and pressures for unity.
via homogeneity practice with bisexual, transgender, and gender non-conforming persons sexual conversion therapy traditional psychoanalytic notions of lesbian couples the impact of sexual abuse on lesbian couples internalized homophobia, heterocentrism, and gay identity group work practice with the LGBTQ community clinical assessment for families where sexual orientation is an issue LGBT parenting the role of health care and many more! Complete with a highly detailed appendix of symbols, definitions, and terms, Social Work Practice with Lesbian, Gay, Bisexual, and Transgender People, is an invaluable resource for social workers and mental health professionals as well as for students and educators at all levels of experience.

**In and Out of the Closet** - 2004 This study examines how parents disclose a child's gay/lesbian identity to outsiders as a signifier of true acceptance of the child's identity. The closet metaphor has been applied not only to gay and lesbian individuals who are hiding their homosexuality from those who perceive them to be heterosexual, but the metaphor has also been applied to parents of gay and lesbian individuals. The secret is unique because literature on family secrets discusses the solidarity among secret-keepers, but keeping the secret of a child's homosexuality may have detrimental effects on the child's identity and self-esteem. A preliminary study found evidence of a three-phase model of acceptance that includes going into the closet, feeling good about the issues, and coming out of the closet. The current study found evidence of this phasic model that includes variations of popular grief models, plus extended
behavioral and communicative actions that make up a more comprehensive model for how parents cope with, accept, and disclose the family secret of a child's gay/lesbian identity. Further, the study includes analysis of general versus specific disclosures and the differences between mothers' and fathers' reactions. A unique online method was used to gather nationwide participation.

**Family Secrets**-Gloria González-López 2015-09-11 “My breasts stopped growing when my grandfather touched them,” confides ‘Elisa’, a young woman who recounts the traumatic incest and sexual abuse she experienced in childhood. In Family Secrets, Gloria González-López tells the life stories of 60 men and women in Mexico who, like Elisa, saw their lives irrevocably changed in the wake of childhood and adolescent incest. In Mexico, a patriarchal, religious society where women are expected to make themselves sexually available to men and where same-sex experiences for both men and women bring great shame, incest is easily hidden, seldom discussed, and rarely reported to authorities. Through gripping, emotional narrative, González-López brings the deeply troubling, hidden, and unspoken issues of incest and sexual violence in Mexican families to light. González-López contends that family and cultural structures in Mexican life enable incest and the culture of silence that surrounds it. She examines the strong bonds of familial obligation between parents and children, brothers and sisters, and elders and youth that, in the case of incest, can morph into sexual obligation; the codes of honor and shame reinforced by tradition and the
Church, discouraging openness about sexual violence and trauma; the double standards of morality and stereotypes about sexuality that leave girls and women and gender nonconforming boys and men especially vulnerable to sexual abuse. Together, these cultural factors create a perfect storm for generations upon generations of unspoken incest, a cycle that takes great courage and strength to heal from and overcome. A riveting account, Family Secrets turns a feminist and sociological lens on a disturbing trend that has gone unnoticed for far too long.

**Out of the Twilight**-Andrew Gottlieb 2014-07-16 How would you react if your son told you he was gay? Out of the Twilight: Fathers of Gay Men Speak explores how fathers have dealt with discovering that their sons were gay and what effect it had on their own development as parents and people. This revealing, moving book will help you understand the difficulties and joys of a father/gay son relationship. Out of the Twilight draws from literary sources such as poems, fairy tales, plays, novels, and movies, as well as psychoanalytic theories, to highlight the obstacles that a father must overcome to understand and identify with his son. In Out of the Twilight, you will discover the personal and intimate struggles of these fathers, including: Mitchell, whose son, Jay, came out at the age of twenty-one, and who describes the coming-out process as a means of forging a closer father-son relationship Juan Miguel, who knew and accepted that his son was gay before his son told him, and who discusses how his love and complete acceptance made the coming-out process easier for his son Peter, whose
response to his son, Richard, was ordering him to live at home so the family could look for a 'cure' for Richard's homosexuality. Daniel, who admitted that he himself was gay after being married and who was very accepting when his son, Charles, came out since it provided them with a special bond. Marty, whose response to his son Gary's coming out was to join P-FLAG, an organization for parents of gay and lesbian children, so he could find support and acceptance among other parents who were going through the same thing. Out of the Twilight allows you to see how fathers have struggled with the truth about their sons' sexuality. This book presents a unique opportunity to develop a greater awareness of and appreciation for father/son similarities and differences, and suggests that through time, communication, and love, fathers can become comfortable with and respectful of their sons' homosexuality.

**Diverse Sexuality and Schools** - David Campos 2003

**Not in This Family** - Heather Murray 2012-08-02
Many Americans hold fast to the notion that gay men and women, more often than not, have been ostracized from disapproving families. Not in This Family challenges this myth and shows how kinship ties were an animating force in gay culture, politics, and consciousness throughout the
latter half of the twentieth century. Historian Heather Murray gives voice to gays and their parents through an extensive use of introspective writings, particularly personal correspondence and diaries, as well as through published memoirs, fiction, poetry, song lyrics, movies, and visual and print media. Starting in the late 1940s and 1950s, Not in This Family covers the entire postwar period, including the gay liberation and lesbian feminist movements of the 1960s and 1970s, the establishment of PFLAG (Parents, Families, and Friends of Lesbians and Gays), and the AIDS crisis of the 1980s and 1990s. Ending her story with an examination of contemporary coming-out rituals, Murray shows how the personal that was once private became political and, finally, public. In exploring the intimate, reciprocal relationship of gay children and their parents, Not in This Family also chronicles larger cultural shifts in privacy, discretion and public revelation, and the very purpose of family relations. Murray shows that private bedrooms and consumer culture, social movements and psychological fashions, all had a part to play in transforming the modern family.

The Annual of Psychoanalysis, V. 30-Jerome A. Winer
2019-07-18 The issue of same-gender sexual identity has challenged our understanding of psychological development and psychological intervention throughout the century just past and continues to provoke discussion in the century upon us. Over the past three decades, psychoanalysis advanced toward a contemporary perspective, which holds that the dynamics of sexual orientation must be an important element of the psychoanalytic process, but must
be approached without prejudice regarding the outcome of analytic exploration of wish and desire. Taken together, the essays in Rethinking Psychoanalysis and the Homosexualities, a thematic volume of The Annual of Psychoanalysis, provide a developmentally grounded and clinically consequential enlargement of this basic premise. The result is a timely overview of contemporary approaches to the study of sexual orientation within psychoanalysis that highlights issues salient to clinical work with lesbian and gay patients. The section on "The Meaning of Sexualization in Clinical Psychoanalysis" demonstrates the importance of psychoanalytic study of same-gender desire and sexual orientation for analyst and analysand alike. Philips considers the analyst's own sexual identity as a factor shaping the analysand's experience of sexuality, whereas Shelby, Lynch, Roughton, and Young-Bruehl, from their various perspectives, address the problem of stigma and prejudice as they distort same-gender desire and same-gender sexual identity. Two concluding sections of the book explore the implications of a clinical psychoanalytic perspective for the study of gay and lesbian lives. Timely and essential reading for all mental health professionals, Rethinking Psychoanalysis and the Homosexualities underscores the profound distance traversed by psychoanalysis in arriving at its contemporary understandings of gender, sexual identity, and sexual desire.

How Homophobia Hurts Children—Jean M Baker 2013-12-16 Homophobia hurts kids. Explore ways to
minimize that trauma! This book illustrates the ways that children growing up to be gay are harmed by homophobia before anyone, including themselves, even knows they are gay. This compelling and sympathetic volume describes many simple ways that these children can be helped to understand that they can grow up to lead normal lives, with hopes and dreams for their futures. How Homophobia Hurts Children: Nurturing Diversity at Home, at School, and in the Community brings home the voices of these children. They describe their experiences to show how they came to the frightening recognition that they are part of a group held in disregard by the rest of society, even sometimes by their own families. Dr. Jean M. Baker, the author of How Homophobia Hurts Children: Nurturing Diversity at Home, at School, and in the Community is a clinical psychologist and the mother of two gay sons. In this book she shares her experience as both psychologist and mother to show how the myths and fallacies about homosexuality have influenced parents, schools, churches, and lawmakers to send children the cruel message that if they are gay, they are not normal and will not be able to lead normal lives. In this unique volume you'll find: a chapter on identity development, following the Eriksonian model interviews with high school students who are self-identified as gay firsthand descriptions of the harassment and victimization of those perceived as gay in schools research on how victimization at school affects gay youths a discussion of the relatively new phenomenon of gay/straight alliances (gay support groups or clubs) a chapter on transgender identity with interviews with four transsexual persons who describe their personal childhood experiences and their transition process The
focus of How Homophobia Hurts Children: Nurturing Diversity at Home, at School, and in the Community, centering on the social and familial experiences of children who will grow up to be gay but have not yet come to that realization, is unique. But beyond that, this book also explains how homophobia affects the attitudes of non-gay children by leading them to believe that it is acceptable to mistreat homosexuals. Finally, specific suggestions are made for changes in parenting and changes in school/classroom practices that could help prevent the harm that is inflicted upon so many of our gay children. Everyone who comes in contact with children on their way to becoming gay/lesbian/bisexual/transgender adults needs to read this book!

Gay and Lesbian Literature Since World War II-Sonya L. Jones 1998 Gay and Lesbian Literature Since World War II chronicles the multifaceted explosion of gay and lesbian writing that has taken place in the second half of the twentieth century. Encompassing a wide range of subject matter and a balance of gay and lesbian concerns, it includes work by established scholars as well as young theoreticians and archivists who have initiated new areas of investigation. The contributors' examinations of this rich literary period make it easy to view the half-century from 1948 to 1998 as the Queer Renaissance. Included in Gay and Lesbian Literature Since World War II are critical and social analyses of literary movements, novels, short fiction, periodicals, and poetry as well as a look at the challenges of establishing a repository for lesbian cultural history.
Specific chapters in this groundbreaking work trace the development of gay poetry in America after World War II; examine how AIDS is represented in the first four Latino novels to deal with the subject matter; and chronicle the birth of lesbian-feminist publishing in the 1970s--showing how it created a flourishing gay literature in the 1980s and 1990s. Other chapters: outline the history of The Ladder from its initial publication in 1956 as the official vehicle of the Daughters of Bilitis to its final issue as a privately published literary magazine in 1972 examine Baldwin's 1962 novel Another Country and discuss the complicated critical history of this work and its relation to Baldwin's literary reputation--racial, sexual, and political factors are taken into account chart how Other Voices, Other Rooms, by Truman Capote, and The House of Breath, by William Goyen, reveal contradictory genderings of male homosexuality--suggesting an absence of a unified model of mid-twentieth-century male homosexuality argue that the 1976 novel Lover, by Bertha Harris, can be considered an exemplary novel within discussions of both postmodern fiction and lesbian theory. (The author calls for Harris to be added to the group of writers such as Wittig, Anzaldúa, Lorde, and Winterson, who are discussed within the context of a postmodern lesbian narrative.) examine the short fiction of Canadian lesbian novelist Jane Rule in an effort to shed light on lesbian creative practice in the homophobic climate of postwar North America argue for an understanding of Dale Peck's novel Martin and John as an attempt to link two apparently different processes of import to contemporary male subjects through examination of the novel alongside selected passages from Nietzsche and Freud focus on the
pragmatic issues of developing and maintaining accessible research venues from which to cultivate the study of racial and cultural diversity in lesbian lives Document the history of the Lesbian Herstory Archives, one of the first lesbian-specific collections in the world, from its birth in the early 1970s to the present.

**OK2BG**-Jack Dunsmoor 2015-05-12 OK2BG is narrative nonfiction, a Memoir about a guy who wants to be a Mentor preferably to a teenager, so they can have a decent & meaningful conversation about stuff & preferably with a kid at-risk, or just otherwise lost, in order to help both the teenager as well as the determined subject of this story realize their unique potential & find or reinforce their place in the world. Overall, a chronicle about the author’s attempt over several years to understand the question of ‘why do I want to be a Mentor’ which eventually helps him become a more insightful person. Subsequently in September, 2010 after a plague of teen suicides, Jack turns his attention to researching gay biographies into optimistically appropriate groups of books for gay kids at-risk, from bullying. After 5 years Jack has categorized 2,000+ books in the form of Memoirs, Biographies & Autobiographies written by or about 1,000+ allegedly gay men. The primary message in OK2BG is to read & reassess before you run asunder!

**Youths Living with HIV**-G. Cajetan Luna 1997 In this enlightening book, you'll explore the life struggles and adaptations leading up to and following HIV infection in
young Americans. The cases presented in Youths Living with HIV envisage a variety of experiences of youths living with HIV and AIDS, including individuals of different races, of each gender, and of different sexual preferences. This discussion of the private "troubles" and experiences of youths helps you understand and identify dependent and larger public issues surrounding HIV infection and AIDS, and demonstrates the need for comprehensive and targeted intervention and preventive measures. This book is the result of the first federally funded multi-site study to research, develop, and provide HIV education and prevention specifically to young Americans. Detailed narrative descriptions were collected by ethnographers of the Joven Project, which started in October 1992, and explored and documented the lives of youths living with HIV and AIDS over a two-year period. This ethnographic exploratory study was one component of a larger National Institute on Drug Abuse (NIDA) supported Secondary AIDS Education and Prevention Program. Youths Living with HIV reconstructs the past and present struggles that young people living with HIV and AIDS face(d), employing qualitative field interviews. Larger and interrelated developmental, social, cultural, and political factors are also illustrated and discussed. As you read through the chapters, you'll gain insight into: youth development--coming of age, sexual development, and risk-taking behaviors gay development and activity--coming out, establishing relationships, and power-imbalanced/cross-generational relationships self-harmful behaviors--drug use, sex, and poverty notification and reaction to infection impression management and disclosure of infection status adaptation to HIV status and
necessary life changes sexual activity and relationships after infection social worlds and support networks/pathological or destructive networks availability and success of existing AIDS-related services future orientation and life expectations Whether you're a counselor, teacher, policymaker, physician, mental health professional, social worker, or advocate who specializes in or focus on youth development, gay youths, field methodology (qualitative research), public health, women's health, drug use, sex work, and/or AIDS, you will find Youths Living with HIV essential to understanding and helping this affected population.

**Coming Out, Coming Home**-Michael C. LaSala
2010-06-25 The discovery that a child is lesbian or gay can send shockwaves through a family. A mother will question how she's raised her son; a father will worry that his daughter will experience discrimination. From the child's perspective, gay and lesbian youth fear their families will reject them and that they will lose financial and emotional support. All in all, learning a child is gay challenges long-held views about sexuality and relationships, and the resulting uncertainty can produce feelings of anger, resentment, and concern. Through a qualitative, multicultural study of sixty-five gay and lesbian children and their parents, Michael LaSala, a leading expert on this issue, outlines effective, practice-tested interventions for families in transition. His research reveals surprising outcomes, such as learning that a child is homosexual can improve familial relationships, including father-child relationships, even if a parent reacts strongly or negatively to the revelation. By confronting feelings of depression, anxiety, and grief head on, LaSala formulates the best approach for practitioners who hope to reestablish intimacy among family members and preserve family connections—and as well as individual autonomy—well into the child's
maturation. By restricting his study to parents and children of the same family, LaSala accurately captures the reciprocal effects of family interactions, identifying them as targets for effective treatment. Coming Out, Coming Home is also a valuable text for families, enabling adjustment through relatable scenarios and analyses.

**Longtime Companions**-Alfred W. Lees 1999 Through a treasury of autobiographical essays, Longtime Companions documents how committed gay male unions can be as enduring, nurturing, and diverse as heterosexual marriages and proves that loving commitments and life-sharing are not exclusive to heterosexual unions. A celebration of gay diversity, this book offers you insights from contributors of different ages, professions, geographic locations, and attitudes.

**Family Secrets**-Deborah Cohen 2017-01-01 We live today in a culture of full disclosure, where tell-all memoirs top the best-seller lists, transparency is lauded, and privacy seems imperiled. But how did we get here? Exploring scores of previously sealed records, Family Secrets offers a sweeping account of how shame--and the relationship between secrecy and openness--has changed over the last two centuries in Britain. Deborah Cohen uses detailed sketches of individual families as the basis for comparing different sorts of social stigma. She takes readers inside an Edinburgh town house, where a genteel maiden frets with her brother over their niece's downy upper lip, a darkening
shadow that might betray the girl's Eurasian heritage; to a Liverpool railway platform, where a heartbroken mother hands over her eight-year old illegitimate son for adoption; to a town in the Cotswolds, where a queer vicar brings to his bank vault a diary--sewed up in calico, wrapped in parchment--that chronicles his sexual longings. Cohen explores what families in the past chose to keep secret and why. She excavates the tangled history of privacy and secrecy to explain why privacy is now viewed as a hallowed right while secrets are condemned as destructive. In delving into the dynamics of shame and guilt, Family Secrets explores the part that families, so often regarded as the agents of repression, have played in the transformation of social mores from the Victorian era to the present day. Written with compassion and keen insight, this is a bold new argument about the sea-changes that took place behind closed doors.

Living in Death’s Shadow-Emily K. Abel 2017-02-28 What is it like to live with—and love—someone whose death, while delayed, is nevertheless foretold? In Living in Death’s Shadow, Emily K. Abel, an expert on the history of death and dying, examines memoirs written between 1965 and 2014 by family members of people who died from chronic disease. In earlier eras, death generally occurred quickly from acute illnesses, but as chronic disease became the major cause of mortality, many people continued to live with terminal diagnoses for months and even years. Illuminating the excruciatingly painful experience of coping with a family member’s extended fatal illness, Abel analyzes the political,
personal, cultural, and medical dimensions of these struggles. The book focuses on three significant developments that transformed the experiences of those dying and their intimates: the passage of Medicare and Medicaid, the growing use of high-tech treatments at the end of life, and the rise of a movement to humanize the care of dying people. It questions the exalted value placed on acceptance of mortality as well as the notion that it is always better to die at home than in an institution. Ultimately, Living in Death’s Shadow emphasizes the need to shift attention from the drama of death to the entire course of a serious chronic disease. The chapters follow a common narrative of life-threatening disease: learning the diagnosis; deciding whether to enroll in a clinical trial; acknowledging or struggling against the limits of medicine; receiving care at home and in a hospital or nursing home; and obtaining palliative and hospice care. Living in Death’s Shadow is essential reading for everyone seeking to understand what it means to live with someone suffering from a chronic, fatal condition, including cancer, AIDS, Alzheimer’s, and heart disease.

Journal of the Association for Research on Mothering-2000

Counseling Adolescents Competently-Lee A. Underwood 2016-03-31 Counseling Adolescents Competently is a comprehensive text for students and professionals compiling foundational and emerging skills in the counseling field.
Authors Lee A. Underwood, Ph.D. and Frances L.L. Dailey, Ph.D. review extensive interventions ranging from assessment to diagnosis as well as fresh perspectives on working with this often challenging group. Employing clinical case scenarios and profiles that demonstrate key issues, this book helps the counselor-in-training to understand the relevant theories and research around adolescents to better engage in culturally relevant interventions and treatment planning. Key Features Unlike most literature related to behavioral health services for adolescents, this text is crafted specifically for the profession of counseling, yet is applicable for all behavioral health providers. Case scenarios address critical issues impacting today’s adolescents including their characteristics, technology issues, diagnoses and typologies, special needs, and interventions involving treatment planning. Themes that are commonly faced by teens, including trauma, grief, loss, emotional issues, sexual development, and peers are covered. A diverse range of adolescents from both urban and non-urban settings are examined. This book addresses a broad audience that includes students in behavioral health training, counseling, and school programs; the practicing provider; and administrative/clinical supervisors and educators.

Counseling Troubled Boys-Mark S. Kiselica 2011-02-14 This volume provides practitioners with clear, helpful information about the process of understanding and engaging a wide array of boys and adolescent males in counseling. It supplies case examples and covers topics
including race, ethnicity, religion, and other cultural factors of boys. A practical tool for school and mental health practitioners who need to understand and respond to the developmental and special issues of boys and adolescent males, Counseling Troubled Boys creates a bridge between young men and helping professionals. Key content includes adjustment issues, strategies for establishing rapport, interventions, case studies, and suggestions for future training and research.

**Something to Tell You**-Gilbert Herdt 2000-02-05 Even now, at the end of the twentieth century, many still have difficulty standing up and saying, "I am the parent of a gay child." Something to Tell You recounts the stories of families whose lives have been touched by the discovery that a child is lesbian or gay—how it affects and influences people's perceptions of their children and even changes the self-image of parents themselves. Focusing on fifty average families—not people seen in clinics or therapy—the authors found a consistent pattern of change: first negative, then positive. Sometimes the news led parents and siblings to form stronger bonds with the child, with each other, and with other relatives and friends. In many cases, their child's partner and partner's family grew to assume an important role in their own lives. In some cases, parents and siblings discovered new meaning in their lives through speaking out or joining PFLAG (Parents, Families, and Friends of Lesbians and Gays) and becoming part of the struggle for lesbian and gay rights. The authors found that families committed to staying together are typically able to
overcome the powerful obstacles imposed by society. Something to Tell You also shows the lasting and sometimes tragic consequences for families who falter in the process of integration. Unwilling to accept their child's sexuality, some parents sought to blame each other, and all too often their own relationships unraveled as a result. Others who failed to tell close friends sometimes lost those friends through keeping secrets. Parents who neglected to form bonds with their child's partner fostered climates of alienation that persisted for years. A richly diverse collection of family stories, Something to Tell You is a book that will help break down widespread prejudice and put an end to destructive cultural myths. It affirms families' highest aspirations toward active love for their gay children, showing the steps to take toward new levels of support, solidarity, and love.

An Introduction to GLBT Family Studies - J Jerry Bigner 2013-05-13 Gain a better understanding of the special therapeutic issues and needs of GLBT families. In terms of research, GLBT families constitute a neglected segment of society. Gender and sexual orientation can make the issues in family studies even more difficult to work through. An Introduction to GLBT Family Studies tackles a challenging research topic by presenting noted experts examining the latest information on the newest type of family studies—GLBT families. This groundbreaking text explores a wide range of unique problems faced by nontraditional families, as well as issues common to traditional families that need to be approached with a GLBT perspective. Though homophobia and heterosexism constantly influence
GLBT families, these factors do not necessarily overwhelm the dynamic of their basic family unit. Issues present in many traditional families are found when researching GLBT families. An Introduction to GLBT Family Studies spotlights the issues, research, and future trends that provide a foundation for the study of GLBT families. This breakthrough volume focuses not only on the obvious unique factors within GLBT families, but also on the elements encountered within families that are present regardless of sexual orientation and gender, such as physical and emotional abuse. Expert contributors present research findings on family pattern issues relating to parent-child relationships, child development, sibling relationships, family structure, intimate relationships, stepfamilies, alternative family structures, and extended family relationships. Each chapter is extensively referenced and offers possibilities for further research. An Introduction to GLBT Family Studies discusses family studies topics such as: the impact of the family of origin life course perspective transgender identity issues and the family when a spouse comes out as gay, lesbian, or bisexual a study of lesbian couples adapting genogram techniques in therapy research comparing siblings of different sexual orientations studies of patterns of responses to parental reactions to learning their offspring are gay, lesbian, or bisexual the polyamory structure to some gay men’s familial relationships same-sex marriages and legalized relationships gay male couples’ roles in today’s society the impact of heterosexism on working with same-sex relationships research on long-term lesbian couples An Introduction to GLBT Family Studies is a valuable reference for academic researchers in family
studies, marriage and family therapy, social work, and counseling; educators, upper division undergraduate and graduate students; and anyone interested in better understanding GLBT family studies.

**Not Just a Passing Phase**-George A. Appleby 1998 This comprehensive textbook helps social workers understand and meet the needs of lesbian, gay, and bisexual people. It outlines approaches to a range of everyday problems associated with issues of oppression, family acceptance, shame, identity development, HIV disease, and addiction. The first of the book's three sections provides an overview of what it means to be gay, lesbian, or bisexual, and locates the text within the ecological model of social work on individual, interpersonal, and institutional levels of intervention. This section includes definitions of sexual orientation, forms of heterosexism and homophobia, and issues of community among gay, lesbian, and bisexual people. The second section covers life transitions, including childhood, adolescence, and late life, as well as sexual relationships, parenting, and life in the workplace. The last part covers the special issues and challenges of mental health, substance abuse, violence (both "gay bashing" and domestic violence), and HIV disease. The final chapter pulls together the practice concepts introduced in the book and provides a blueprint for knowledge development and dissemination in the field.

**Gay and Lesbian Families**-Joan Nordquist 2000 Each
bibliography includes a comprehensive list of the theorist's works and critical studies of these works in English. Each bibliography contains approximately 600 to 900 entries. Books, journal articles, essays within edited books (in the manner of Essay and General Literature) and dissertations are included. References are provided from a wide variety of disciplines and bibliographic sources. The primary purpose of each bibliography is to provide access to the widely reprinted primary works in English and the critical literature in a great variety of books and journals. The topical bibliographies include the authoritative works on the subject and are arranged in useful categories. The lively part of the modern/post-modern debate is generally taking place in alternative and left journals -- journals always included in the literature search in the compiling of the bibliographies.

**Handbook of Contemporary Families**-Marilyn Coleman 2004 What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data-based theories about what is likely to happen in the future. The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H. Ganong, along with a multidisciplinary group of contributors, critique the
approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education, and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live, including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion and families, racial and ethnic diversity, a feminist vision for families, older families, and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing, and human development. The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students, researchers, educators, and practitioners who study and work with families in several disciplines, including Family Science, Human Development and Family Studies, Sociology, Marriage & Family Therapy, and Social Work.

**Sexual Orientation and Gender Expression in Social Work Practice** - Deana F. Morrow 2006-02-01 This volume offers an invaluable resource for both social work educators and practitioners working with gay, lesbian, bisexual, and transgender (GLBT) clients and their families. It is the first such work to specifically address issues affecting bisexual and transgender people as well as the larger concerns of the
GLBT community. Contributors present specific, practical suggestions for effective knowledge-based and skills-based practice with GLBT clients. Topics include heterosexism and homophobia, identity development, coming out, GLBT adolescents and older adults, health-care concerns, relationships and families, workplace issues, the history of the GLBT civil rights movement, sex reassignment, AIDS, and the role of spirituality in the lives of GLBT individuals. The contributors also consider intragroup issues of race, ethnicity, age, and socioeconomic status.

The Secret Life of Families - Evan Imber-Black 2009-08-19
Secrets come in all shapes and sizes. And for families as well as individuals, they are built on a complex web of shifting motives and emotions. But today, when personal revelations are posted on the Internet or sensationalized on afternoon talk shows, we risk losing touch with how important secrets are--how they are used and abused, their power to harm and heal. In this important work, Evan Imber-Black explores the nature of secrets, helping us understand: The distinction between healthy privacy and toxic secrecy What to tell--and not to tell--young children How to safely confront a family "zone of silence" Why adolescents need to have some secrets--and where to draw the line The effect of "official" secrets, like sealed adoption records and medical testing What to consider before revealing an important secret And much more Filled with moving first-person stories, The Secret Life of Families provides perspective on some of today's most sensitive personal and social issues. Giving voice to our deepest fears
and to our power to overcome them, this is a book that will be talked about for years to come.

**Aliens in the Household of God**-Paul Germond 1997 This groundbreaking volume explores, and challenges, the prejudice and discrimination that gay people experience within South African churches. Drawing from a broad and diverse base, these stories and essays suggest that 'heterosexism' is the problem.

**Delusional Relationships**-Averil Marie Doyle 1995 At the core of delusional relationships are half-truths, misperceptions and past experiences. This book explores the nature of these relationships and what one can do to change them.

**Substance Abuse Issues Among Families in Diverse Populations**-Jorge Delva 2013-12-16 Enrich your knowledge of substance abuse treatment solutions used in diverse cultures within the United States! This informative volume highlights ways in which substance abuse problems are experienced and addressed by families in diverse populations at the societal, familial, and individual levels. Its scope is broad, providing you with information about the experiences and, in some cases, healing of diverse groups of people in the United States. These include African-American and Latino families, Hawaiian elders, Asian/Pacific Islanders of various sexual persuasions, Al-Anon members, and
welfare recipients. What's good for the goose is not necessarily good for the gander. What works for one social/cultural group may not be at all helpful for another. Substance Abuse Issues Among Families in Diverse Populations will inform and enlighten you about the ways that people from various backgrounds respond to treatment and about the culture-specific treatments and interventions that work for them. This unique book examines: mandatory drug testing of welfare recipients, or "conditional welfare" kinship support in the cultural context of Latino and African-American families how Hawaiian elders contribute in the treatment of Asian and Pacific Islander women for substance abuse, and the time-honored Hawaiian family intervention strategy "Hooponopono" the results of a study focused on the types and extent of social support that Asian and Pacific Islander males received from their parents after revealing that they were both gay and HIV-positive the results of interviews with Al-Anon members about their experiences in watching their spouses slip into alcoholism the relationship between family involvement and the effectiveness of substance abuse treatment programs Social workers, counselors, psychologists, those involved in ethnic studies, and anyone interested in diversity issues in general or substance abuse in particular will find Substance Abuse Issues Among Families in Diverse Populations of great value.

**Personal Conflict Management**-Suzanne Mccorkle
2015-08-27 Personal Conflict Management utilizes a modernized theory/skill approach to interpersonal conflict,
placing equal emphasis on the theoretical and practical. Supporting the notion that there is not one correct approach to conflict management, and utilizing the authors’ shared experiences as mediators and organizational facilitators, this text demonstrates the value of collaborative models for resolving conflict and the necessity and benefits in understanding competitive approaches. Through the inclusion of both competitive and cooperative theories, the authors present contrasting perspectives of conflict management. Beginning with an introduction to conflict, the text examines the major approaches and theories of conflict management. Following a discussion of the causes and variables which exist within conflicts, the skills necessary for conflict management are analyzed, including listening, the ability to seek information, the importance of understanding personality types and behavior patterns, negotiation, and conflict assessment. The final two sections of the text take the reader beyond the basics, exploring the difficulties encountered in conflict management, the aftermath to a conflict, and conflicts in context, applying the theoretical concepts to everyday situations. Written in an academic yet reader-friendly style, this textbook is enjoyable and thought-provoking for both students and instructors. Case studies, examples, essay suggestions, discussion questions, etc support an interactive environment that optimizes learning opportunities. Instructors will find these features useful in the development of classroom discussions and assignments, while students will benefit from the opportunity to examine their own conflict behavior and enhance their skills in conflict management.

**Contemporary Gay American Poets and Playwrights** - Emmanuel Sampath Nelson 2003 With a few notable exceptions, gay artists of earlier generations felt compelled to avoid sexual candor in their writings. Conversely, most contemporary gay poets and playwrights are free from such constraints and have created a remarkable body of work. This reference is a guide to their creative achievements. Alphabetically arranged entries present 62 contemporary gay American poets and dramatists. A number of these writers are well known, including Edward Albee, Harvey Fierstein, and Allen Ginsberg. Others, such as Alan Bowne, Timothy Liu, and Robert O'Hara, merit wider recognition. Each entry is written by an expert contributor and includes a biography, a discussion of major works and themes, an overview of the author's critical reception, and primary and secondary bibliographies.
