Hunting And Gathering: An Introduction to Human Geography

Agriculture, Food and Water——Food and Agriculture Organization

2003 Agriculture is by far the largest consumer of water on the globe, with up to 70 per cent of the water we take from rivers and aquifers going into irrigated agriculture. This report considers, amongst other issues, water use in food production and the links between food security, poverty and water use. The publication is based on ‘Water for people - water for life, the UN World Water Development Report’ (ISBN 9211038818) jointly published by UNESCO and Berghahn Books (based on the findings of 23 UN agencies concerned with freshwater for the World Water Assessment Programme).

Violence and Warfare among Hunter-Gatherers——Mark W Allen 2016-07-01 How did warfare originate? Was it human genetics? Social competition? The rise of complexity? Intensive study of the long-term hunter-gatherer past brings us closer to an answer. The original chapters in this volume examine cultural areas on five continents where there is archaeological, ethnographic, and historical evidence for hunter-gatherer conflict despite high degrees of mobility, small populations, and relatively egalitarian social structures. Their controversial conclusions will elicit interest among anthropologists, archaeologists, and those in conflict studies.

The Cultural Landscape: An Introduction to Human Geography, Global Edition——James M. Rubenstein 2017-10-16 For courses in Human Geography. Strengthening readers’ connection to geography through active, discovery-based learning Trusted for its timeliness, readability, and sound pedagogy, The Cultural Landscape: An Introduction to Human Geography emphasizes the relevance of geographic concepts to human challenges. The relationship between globalization and diversity is woven throughout; Rubenstein addresses these themes with a clear organization and presentation that engages students and appeals to instructors. The Twelfth Edition challenges readers to apply geography tools and techniques to their local environments, bridging the global and the local, and getting students to interact with their local geography.

New applied activities and debate features further strengthen readers’ ties to the geography all around them. Pearson MasteringGeography™ not included. Students, if Pearson MasteringGeography is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. Pearson MasteringGeography should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. Pearson MasteringGeography is an online homework, tutorial, and assessment product proven to improve results by helping students quickly master human geography concepts. Interactive, self-paced coaching activities provide individualized homework help to students stay on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts.

AP Human Geography——Meredith Marsh 2020-08-04 Barron’s AP Human Geography: With 3 Practice Tests is fully revised to align with the College Board changes for the May 2020 exam. You’ll get in-depth content review and revised practice tests to help you feel prepared for the new exam. The College Board has announced that there are May 2021 test dates available are May 3-7 and May 10-14, 2021. This edition includes: Content aligned with the AP course, including updates to the first section of the test, the multiple-choice section, and the score weighting. Two full-length practice exams in the book with answers and explanations. Subject review covering map reading and understanding scale, population geography, cultural geography, political geography, economic geography, agricultural, and urban geography.

AP Human Geography Premium——Meredith Marsh 2020-08-04 Barron’s AP Human Geography Premium: With 4 Practice Tests is fully revised to align with the College Board changes for the May 2020 exam. You’ll get in-depth content review and revised practice tests to help you feel prepared for the new exam. The College Board has announced that there are May 2021 test dates available are May 3-7 and May 10-14, 2021. This edition includes: Content aligned with the AP course, including updates to the first section of the test, the multiple-choice section, and the score weighting. Three full-length practice tests online. Two full-length practice tests in the book. Subject review covering map reading and understanding scale, population geography, cultural geography, political geography, economic geography, agricultural, and urban geography.

Paleopathology at the Origins of Agriculture——Mark Nathan Cohen 2013 Presents data from nineteen different regions before, during, and after agricultural transitions, analyzing populations in Africa, Asia, the Middle East, Europe, and South America while primarily focusing on North America. A wide range of health indicators are discussed, including mortality, episodic stress, physical trauma, degenerative bone conditions, isotopes, and dental pathology.

Barron’s AP Human Geography with Online Tests——Meredith Marsh 2018-08-06 Barron’s AP Human Geography features key content review and practice to help students prepare for the exam. This edition includes: Two full-length practice exams in the book with answers and explanations. One diagnostic test to help students target areas where they need more study. Three full-length online practice tests with all questions answered and explained. Subject review covering map reading and understanding scale, population geography, cultural geography, political geography, economic geography, agricultural, and urban geography.

Why Forage?——Brian F. Codding 2016-06-15 Foraging persists as a viable economic strategy both in remote regions and within the bounds of developed nation-states. Given the economic alternatives available, why do some groups choose to maintain their hunting and gathering lifeways? Through a series of detailed case studies, the contributors to this volume examine the decisions made by modern-day foragers to sustain a predominantly hunting and gathering way of life. What becomes clear is that hunter-gatherers continue to forage because the economic benefits of doing so are high relative to the localalternatives and, perhaps more importantly, because the social costs of not foraging are prohibitive; in other words, hunter-gatherers value the social networks built through foraging and sharing more than the potential marginal gains of a new mode of subsistence. Why Forage? shows that hunting and gathering continues to be a viable and vibrant way of life even in the twenty-first century.

AP Human Geography 2017-2018——Kelly Swanson 2017-02-07 The only Advanced Placement test preparation guide that delivers 75 years of proven Kaplan experience and features exclusive strategies, practice, and review to help students ace the AP Human Geography exam! Students spend the school year preparing for the AP Human Geography test. Now it’s time to reap the rewards: money-saving college credit, advanced placement, or an admissions edge. However, achieving a top score on the AP Human Geography exam requires more than knowing the material—students need to get comfortable with the test format itself, prepare for pitfalls, and arm themselves with foolproof strategies. That’s where the Kaplan plan has the clear advantage. Kaplan’s AP Human Geography 2017-2018 offers many essential and unique features to help improve test scores, including: * Two full-length practice tests and a diagnostic test to target areas for score improvement * Detailed answer explanations * Tips and strategies for scoring higher from expert AP Human Geography teachers and students who got a perfect 5 on the exam * Targeted review of the most up-to-date content, including key information that is specific to the AP Human Geography exam * Glossary of key terms and concepts Kaplan’s AP Human Geography 2017-2018 author Kelly Swanson has over 15 years of experience consulting and developing Human Geography curriculum. His expertise has helped make this and other books the best that Kaplan has to offer in AP Human Geography.

Kaplan AP Human Geography 2017-2018——Kelly Swanson 2015-08-04 The only Advanced Placement test preparation guide that delivers 75 years of proven Kaplan experience and features exclusive strategies, practice, and review to help students ace the AP Human Geography exam! Students spend the school year preparing for the AP Human Geography test. Now it’s time to reap the rewards: money-saving college credit, advanced placement, or an admissions edge. However, achieving a top score on the AP Human Geography exam requires more than knowing the material—students need to get comfortable with the test format itself, prepare for pitfalls, and arm themselves with foolproof strategies. His expertise has helped make this and other books the best that Kaplan has to offer in AP test prep. Kaplan’s AP Human Geography 2017-2018 provides students with everything they need to improve their scores—guaranteed. Kaplan’s Higher Score Guarantee provides security that no other test preparation guide on the market can match. Kaplan has helped more than three million students to prepare for standardized tests. We invest more than $4.5 million annually in research and support for our products. We know that our test-taking techniques and strategies work and our materials are completely up-to-date. Kaplan’s AP Human Geography 2016 is the must-have preparation tool for every student looking to do better on the AP Human Geography test!
The Creative Spark—Agustín Fuentes 2017-03-21 A bold new synthesis of paleontology, archaeology, genetics, and anthropology that overturns misconceptions about race, war and peace, and human nature itself, answering an age-old question. What made humans so exceptional among all the species on Earth? Creativity. It is the secret of what makes humans special, hiding in plain sight. Agustín Fuentes argues that your child’s finger painting comes essentially from the same place as creativity in hunting and gathering millions of years ago, and throughout history in making war and peace, in intimate relationships, in shaping the planet, in our communities, and in all of art, religion, and even science. It requires imagination and collaboration. Every poet has her muse, every engineer, an architect, every politician, a constituency. The manner of the collaborations varies widely, but successful collaboration is inseparable from imagination, and it brought us everything from knives and hot meals to iPhones and interstellar spacecraft. Weaving fascinating stories of our ancient ancestors’ creativity, Fuentes finds the patterns that match modern behavior in humans and animals. This key quality has propelled the evolutionary development of our bodies, minds, and cultures, both for good and for bad. It’s not the drive to reproduce; nor competition for mates, or resources, or power; nor our propensity for caring for one another that have separated us out from all other creatures. As Fuentes concludes, to make something lasting and useful today you need to understand the nature of your collaboration with others, what imagination can and can’t accomplish, and, finally, just how completely our creativity is responsible for the world we live in. Agustín Fuentes’s resounding multimillion-year perspective will inspire readers—and spark all kinds of creativity.

The Goodness Paradox—Richard Wrangham 2019-01-29 “A fascinating new analysis of human violence, filled with fresh ideas and gripping evidence from our primate cousins, historical forebears, and contemporary neighbors.” —Steven Pinker, author of The Better Angels of Our Nature We Homo sapiens can be the nicest of species and also the nastiest. What occurred during human evolution to account for this paradox? What are the two kinds of aggression that primates are prone to, and why did each evolve separately? How does the intensity of violence among humans compare with the aggressive behavior of other primates? How did humans domesticate themselves? And how were the acquisition of language and the practice of capital punishment determining factors in the rise of culture and civilization? Authoritative, provocative, and engaging, The Goodness Paradox offers a startlingly original theory of how, in the last 250 million years, humankind became an increasingly peaceful species in daily interactions even as its capacity for coolly planned and devastating violence remains undiminished. In tracing the evolutionary histories of reactive and proactive aggression, biological anthropologist Richard Wrangham forcefully and persuasively argues for the necessity of social tolerance and the control of savage divisiveness still haunting us today.

Origins—Lewis Dartnell 2019-05-14 A New York Times-bestselling author explains how the physical world shaped the history of our species When we talk about human history, we often focus on great leaders, population forces, and decisive wars. But how has the earth itself determined our destiny? Our planet wobbles, driving changes in climate that forced the transition from nomadism to farming. Mountainous terrain led to the development of democracy in Greece. Atmospheric circulation patterns later on shaped the progression of global exploration, colonization, and trade. Even today, voting behavior in the south-east United States ultimately follows the underlying pattern of 75 million-year-old sediments from an ancient sea. Everywhere is the deep imprint of the planetary on the human. From the cultivation of the first crops to the founding of modern states, Origins reveals the breathtaking impact of the earth beneath our feet on the shape of our human civilizations.

Woman the Gatherer—Frances Dahlberg 1981-01-01 Essays discuss chimpanzees as an evolutionary model, modern examples of hunter-gatherer tribes, women’s and men’s roles in prehistoric times, and primitive human adaptations

Case Studies in Human Ecology—Daniel G. Bates 2013-06-29 This volume was developed to meet a much noted need for accessible case study material for courses in human ecology, cultural ecology, cultural geography, and other subjects increasingly offered to fulfill renewed student and faculty interest in environmental issues. The case studies, all taken from the journal Human Ecology: An Interdisciplinary Journal—represent a broad cross-section of contemporary research. It is tempting but inaccurate to suggest that these represent the “best of Human Ecology.” They were selected from among many outstanding possibilities because they worked well with the organization of the book which, in turn, reflects the way in which courses in human ecology are often organized. This book provides a useful sample of case studies in the application of the perspective of human ecology to a wide variety of problems in different regions of the world. University courses in human ecology typically begin with basic concepts pertaining to energy flow, feedback relations, ma ternal cycles, population dynamics, and ecosystem properties, and then take up illustrative case studies of human-environmental interactions. These are usually discussed either along the lines of distinctive strategies of food procurement (such as foraging or pastoralism) or as adaptations to specific habitat types or biomes (such as the circumpolar regions or arid lands).
