Politics - Wikipedia
Politics (from Greek: Πολιτικά, politiká, 'affairs of the cities') is the set of activities that are associated with making decisions in groups, or other forms of power relations between individuals, such as the distribution of resources or status. The branch of social science that studies politics and government is referred to as political science.
What is Story Setting? Mastering Writing Time and Place
The politics and government, all make up the ether of a setting. I rarely incorporate all to this; my settings are pretty basic and bland, but knowing what’s what helps me make better choices in the planning and execution of the plot.

Two renowned investment advisors and authors of the bestseller The Great Reckoning bring to light both currents of disaster and the potential for prosperity and renewal in the face of radical changes in human history as we move into the next century. The Sovereign Individual details strategies necessary for adapting financially to the next phase of Western civilization.

Creating an Organizational Structure - Mastering Strategic
Simple Structure. Many organizations start out with a simple structure. In this type of structure, an organizational chart is usually not needed. Simple structures do not rely on formal systems of division of labor (Figure 9.7 “Simple Structure”). If the firm is a sole proprietorship, one person performs all the tasks the organization needs to accomplish.

Classic Who: GHW Bush and the JFK Assassination - WhoWhatWhy
Oct 2017 · The highly anticipated release of long-
withheld US government documents related to the assassination of President John F. Kennedy is scheduled for this Thursday, October 26. In anticipation, the media has devoted more attention to this history-altering political murder than at any time since the hoopla surrounding Oliver Stone’s 1991 film “JFK.” On Saturday, President Trump tweeted:
