PESTLE Analysis: Business Environmental Analysis
Dec 15, 2011 · A detailed analysis of the macro-environment or the environment as a whole is called PESTLE analysis, which precisely means a bird’s eye view of the PESTLE analysis business conduct. The PESTLE analysis ascertains for the managers and the strategy builders as to where their market currently stands and where it will head off in the future.

Level of analysis - Wikipedia
Level of analysis vs unit of analysis. Level of analysis is closely related to the term unit of analysis, and some scholars have used them interchangingly, while others argue for a need for distinction. Ahmet Nuri Yurdusev wrote that "the level of analysis is more of an issue related to the framework/context of analysis and the level at which one conducts one's analysis, whereas the ...

Macro Environment - Factors, Components, Classification
Macro Environment Factors. The macro-environment refers to the external environment of
any business in which it exists. This environment is enormous and unpredictable and thus uncontrollable by the firm. That is why the success of any firm generally depends on its ability to adjust and respond to the changes in the Macro Environment.
